Sexual Reflexology-Mantak Chia 2003-05-22
Moves reflexology beyond the realm of foot massage and into the realm of sexuality. • Offers acupressure methods to build intimacy and heighten sexual pleasure. • Helps couples find their sexual energy potential and physical compatibility. • Provides techniques to perform time-tested Taoist sexual-spiritual exercises. • By Mantak Chia, coauthor of The Multi-Orgasmic Man. The most powerful reflex points on the body are on the sexual organs. While the practice of reflexology is normally associated with massage of the feet, in Sexual Reflexology Mantak Chia gives applications for using the sexual reflex points in lovemaking, transforming sexual intercourse into a form of ecstatic acupressure. By combining the classic Taoist sexual texts with modern reflexology theory, the author provides a unique opportunity for couples to practice sexual intimacy as an act of healing. Mantak Chia shows how to evaluate a person’s sexual energy potential as well as how the size and shape of the sexual organs determine a couple’s compatibility. In addition to the specific ecstatic acupressure exercise instructions, he provides thoughtful commentary on ancient Taoist practices that reveal how we can all use our sexual essence to create healthy and loving relationships.

The Secret Teachings of the Tao Te Ching-Mantak Chia 2005-01-31 Reveals techniques for achieving spiritual immortality through an in-depth exploration of Lao-tzu's Tao Te Ching • Includes practices and meditations for living in harmony with the Tao (universal essence) and Te (kind action) • Reveals the integration of heavenly and human power in the mystic field within us • Presents Tao Huang’s English translation of the Tao Te Ching from the original Chinese Mawangdui text unearthed in 1973 For over 2,500 years the words of the Tao Te Ching, the primary scripture of Laoism and Taoism, have been regarded as among the greatest treasures of the world. Lao-tzu, whose name means “the ancient child,” wrote these brief but essential verses that have both confounded and conferred blessings on humankind. Now Taoist masters Mantak Chia and Tao Huang guide readers through the origins of this philosophy, the meaning behind its 5,000 pictographs, and the way of living that generations have followed. While the text of the Tao Te Ching has been passed down in literary form for generations, the essence of the text can be understood only through heart awakening—a true integration of body and mind—made possible with the insights and exercises in this book. The authors analyze Lao-tzu’s teachings, line by line, and offer meditations, interpretations, and practical illustrations that clarify the true meaning and purpose of this classic text.

Tan Tien Chi Kung-Mantak Chia 2004-09-01 A fundamental Taoist practice for enhancing and utilizing chi • Includes breathing and movement exercises to promote vitality and healing through the cultivation of chi in the tan tien and perineum
areas • Presents the foundational exercises that are essential for more advanced practices such as Iron Shirt Chi Kung and Cosmic Healing Tan Tien Chi Kung is the art of cultivating and condensing chi in the lower abdomen—the tan tien—the fundamental power storehouse of the body. Known as the Ocean of Chi to the ancient Taoists, this lower abdominal area holds the key to opening the body and the mind for the free and continuous movement of chi. Tan Tien Chi Kung contains specific breathing and movement exercises that develop the power of the chi stored in the body to increase vitality, strengthen organs, and promote self-healing. Mantak Chia explains how these exercises also provide a safe and effective method for receiving earth energy, which allows the practitioner to achieve balance physically, mentally, and spiritually—all of which are essential for the more advanced practices of Iron Shirt Chi Kung and Cosmic Healing. It is our mind that directs and guides our chi, but if the mind and body are out of balance or under stress, the mind cannot perform this function. The tan tien actually contains a large quantity of neurotransmitters, making it a key source of body intelligence. It is for this reason the Taoists also referred to Tan Tien Chi Kung as Second Brain Chi Kung and created exercises that would allow practitioners to gain awareness of the tan tien’s function to restore the mind-body balance that is essential for spiritual growth and optimal well-being.

Karsai Nei Tsang—Mantak Chia 2011-07-08 An illustrated guide to releasing emotional and physical blockages in the pelvic area through massage • Presents step-by-step instructions for sexual organ massages for women and men • Explains techniques to release knots, unravel nerve and lymphatic tangles, dissolve toxins and sediments, and increase blood flow • Effective for impotency, frequent and difficult urination, painful menstruation, ovarian cysts, menopause symptoms, painful intercourse, and low libido as well as back pain, sciatica, and hormone imbalance Our sexual organs play a major role in our physical and emotional health. Many emotional traumas and stresses are stored in the pelvic region in the form of tension in the muscles, ligaments, and tendons and imbalances in the meridians and organs, resulting in an accumulation of toxins and energetic knots and tangles. Freeing the jing chi of the sexual organs—a powerful source of healing energy—Karsai Nei Tsang helps to resolve physical and emotional blockages in the pelvic area through massage, meridian clearing, and detoxification. Illustrating complete sexual organ massages for women and for men, this book guides you through the techniques of Karsai Nei Tsang—including necessary detox preparations and the underlying Chi Nei Tsang principles—and shows you how to release knots and tight muscles (including the hip, buttock, and thigh muscles), unravel nerve and lymphatic tangles, dissolve toxins and sediments, and increase blood flow to the pelvic area. Addressing common problems associated with our sexual organs, this practice can be used to treat impotency, frequent and difficult urination, painful menstruation, ovarian cysts, menopause symptoms, painful intercourse, and low libido. It is also effective in alleviating back pain and sciatica, improving the body’s alignment, strengthening the pelvic floor, balancing the hormones, and increasing general vitality.

The Alchemy of Sexual Energy—Mantak Chia 2009-12-23 Taoist techniques for replenishing our internal energy with universal cosmic energy • Shows how to transform excess sexual energy (Ching Chi) into self-healing energy • Presents advanced Cosmic Healing Chi Kung practices, which gather the limitless resources of Cosmic Chi for healing • Explains how opening of the three tan tiens to the six directions allows personal consciousness to connect directly to higher sources of energy Taoists consider our sexual energy to be the creative force that we can use to regenerate the body’s internal energy, but we must learn how to harness excess sexual energy and transform it into chi, or life-force energy. When we circulate the sexual energy in the Microcosmic Orbit—a continuous energy loop that runs up the spine and down the front of the body—we transform it into self-healing energy that can be stored in the organs and the three tan tiens: energy centers in the brain, the heart center, and the lower abdomen. The Alchemy of Sexual Energy builds upon Microcosmic Orbit practices discussed in Healing Light of the Tao. The more we open the flow of our internal energy the more capable we are of connecting to the
cosmic energy that exists outside ourselves in the universe. By learning to open the three tan tien to the six directions, the Taoist practitioner combines mind power with extension of chi to draw cosmic energy into the body. This energy, too, can be stored in the three tan tien and used as needed for healing. When we learn to flow in this way with the energy of the Tao, life ceases to be a struggle.

**Healing Love through the Tao** - Mantak Chia
2005-07-15 A new edition of the bestseller • The first book to reveal in the West the Taoist techniques that enable women to cultivate and enhance their sexual energy • Reveals Taoist secrets for shortening menstruation, reducing cramps, and compressing more chi into the ovaries for greater sexual power • Teaches the practice of total body orgasm For thousands of years the sexual principles and techniques presented here were taught by Taoist masters in secret only to a small number of people (sworn to silence), in the royal courts and esoteric circles of China. This is the first book to make this ancient knowledge available to the West. The foundation of healing love is the cultivation, transformation, and circulation of sexual energy, known as jing. Jing energy is creative, generative energy that is vital for the development of chi (vital life-force energy) and shen (spiritual energy), which enables higher practices of spiritual development. Jing is produced in the sexual organs, and it is energy women lose continually through menstruation and childbearing. Mantak Chia teaches powerful techniques developed by Taoist masters for the conservation of jing and how it is used to revitalize women’s physical, mental, and spiritual well-being. Among the many benefits conferred by these practices are a reduction in the discomfort caused by menstruation and the ability to attain full-body orgasm.

**Tai Chi Fa Jin** - Mantak Chia
2012-02-08 A guide to the seemingly effortless yet explosively powerful martial art techniques of Fa Jin • Explains how to collect energy within and discharge it for self-defense as well as healing • Explores how to counter the natural instinct to resist force with force and develop yielding softness through the 13 Original Movements of Tai Chi • Illustrates routines for the partner practice of “Push Hands” (Tui Shou) Fa Jin, an advanced yang style of Tai Chi, complements the physical, mental, and spiritual conditioning available through solo Tai Chi practice and the internal martial arts of Taoism. Fa Jin enables adepts to harness the energy of yin, yang, and the earth in the lower tan tien and discharge it as an extremely close-range yet explosively powerful blow in self-defense and partner practice as well as in healing techniques. Integrating the teachings of many Taoist masters, including Chang San-Feng, the creator of Tai Chi; Wang Tsung-Yueh, the legendary 19th-century master; Bruce Lee, the actor and martial artist who made the “one-inch punch” technique famous; and the Magus of Java, a living master able to discharge energy in the form of electric shocks, this book explores the history, philosophy, internal exercises, and physical practices of Fa Jin. Drawing on Iron Shirt Chi Kung and Tan Tien Chi Kung techniques, Master Mantak Chia and Andrew Jan reveal the secrets to collecting yin and yang in the lower tan tien and discharging the energy in a seemingly effortless yet explosive blow. Illustrating several routines of the Tai Chi partner practice of “Push Hands” (Tui Shou), they explain how to apply Fa Jin techniques by “listening” to your opponent’s intentions and counteracting the natural instinct to resist force with force through yielding softness and redirection. The authors also detail how to prepare for this advanced practice through stretching, meditation, breathing, relaxation, and energetic exercises.

Bone Marrow Nei Kung - Mantak Chia 2006-10-25 A guide to nourishing the body through bone marrow rejuvenation exercises • Presents exercises to “regrow” bone marrow,
revive the internal organs, and prevent osteoporosis. Explains the use of bone breathing and bone compression, “hitting” to detoxify the body, and sexual energy massage and chi weight lifting to enhance the life force within. Most Westerners believe that a daily physical exercise program helps slow the aging process. Yet those whose bodies appear most physically fit on the outside often enjoy only the same life span as the average nonathletic person. It is the internal organs and glands that nourish every function of the body, and it is the bone marrow that nourishes and rejuvenates the organs and glands through the production of blood. By focusing only on the muscles without cultivating the internal organs, bones, and blood, the Western fitness regimen can ultimately exhaust the internal system. In Bone Marrow Nei Kung Master Mantak Chia reveals the ancient mental and physical Taoist techniques used to “regrow” bone marrow, strengthen the bones, and rejuvenate the organs and glands. An advanced practice of Iron Shirt Chi Kung, Bone Marrow Nei Kung was developed as a way to attain the “steel body” coveted in the fields of Chinese medicine and martial arts. This method of absorbing energy into the bones revives the bone marrow and reverses the effects of aging through the techniques of bone breathing, bone compression, and sexual energy massage, which stimulates the hormonal production that helps prevent osteoporosis. Also included is extensive information on chi weight lifting and the practice of “hitting” to detoxify the body.

**Taoist Astral Healing** - Mantak Chia 2004-04-12

Advanced techniques for utilizing the universal healing connections revealed by Taoist astrology and astronomy. Provides meditations and healing techniques based on Taoist astrology. Allows readers to develop a personal practice based on an understanding of their planetary strengths and weaknesses. Includes Taoist star practices for expanding personal awareness into a cosmic field of chi that will support others in their efforts to heal and grow spiritually. Taoist Astral Healing provides a step-by-step program for refining our ability to cultivate, circulate, and retain chi from the stars and planets. While the initial focus of Taoism centers on creating physical health that is deeply rooted in the energies provided by the earth, individuals may also draw down energies from the stars and planets to continue to grow in awareness and to develop their full soul potential. Harnessing these energies allows us to break through the cycles of attraction and addiction, promote longevity, and transform the physical and energy body into a “light body” in order to heal ourselves and others. Taoist Astral Healing teaches how to connect the body with the five elemental forces of nature, as well as the moon, sun, planets, stars, and galaxies. Noting the relationships between specific constellations and points on the body—such as the Big Dipper’s correspondence to the bones of the skull—the authors offer planetary and stellar meditations that allow the inner and outer universes to become more connected. Following the numerous meditations and techniques provided throughout the book, readers develop a personal practice based on an understanding of their planetary strengths and weaknesses and their own spiritual growth.

Tendon Nei Kung - Mantak Chia 2009-08-11

A guide to strengthening and repairing the tendons to reverse the effects of aging. Shows how strengthening the tendons can lead to more energy, healthier organs, and prevention of arthritis. Explains how to practice the postures alone or with a partner. Includes the Mung Beans hitting practice, which repairs damaged tendons and joints; relieves constipation, stomach cramps, and headaches; and aids in detoxification. Healthy tendons are the foundation of true strength in the body. Strong and supple tendons and open joints allow more space to store raw energy, which can then be transformed into higher creative and spiritual energy. The eight postures of Tendon Nei Kung are specifically designed to open the joints and fortify and grow all the tendons in the body, strengthening them as a unit. Like the practice of Iron Shirt Chi Kung, Tendon Nei Kung cultivates the ability to move the earth force up from the ground, through the feet, and into the body, in this case raising it to nourish the tendons. In Tendon Nei Kung, Mantak Chia explains how to perform the eight postures individually as well as with a partner. He reveals how regular practice of Tendon Nei Kung can help prevent and relieve arthritis by forcing poisoning acid out of the body to make room for healing chi energy. He provides ten supplementary exercises to help heal damaged tendons and joints without strenuous movement and also includes information on the Mung Beans hitting practice, an ancient practice that in addition to repairing damaged tendons and joints also aids in detoxification and relieves levels of instruction.

**Cosmic Detox**-Mantak Chia 2011-04-25 How to cleanse the nine openings of the body for detoxification and self-healing • Explains how to purify the body’s internal environment through mono diets, fasts, and colonic cleanses to prevent degenerative disease and premature aging • Presents a 14-day total-body cleansing guide • Includes chi self-massage and healing sound practices as well as natural recipes for herbal tonics and cleansing flushes Long known by Taoist masters, the body has an innate ability to heal itself, an ability that is hampered by toxins in the food we ingest and energy blockages that arise from illnesses and obstacles in our lives. These blockages transform the body’s energy rivers into a polluted and stagnant swamp—the root of degenerative disease as well as premature aging. Revealing the detoxification and rejuvenation practices of the Taoist sages, Master Mantak Chia and William U. Wei show how to reactivate your body's self-healing abilities by gradually and safely expelling accumulated toxins through fasting, mono diets, and cleansing the nine openings of the body. Using the practices of chi self-massage and healing sounds along with natural recipes for herbal tonics and cleansing flushes for each of the openings and their related organs, the authors explain how to balance and purify the body’s internal environment through acid and alkaline foods, urine therapy, colonic cleanses, dry skin brushing, ear candling, and energized water. Concluding with a 14-day total-body cleansing program, Cosmic Detox offers tools to keep the energy rivers clean and flowing, preparing the body for higher level Taoist practices as well as enabling healing of our emotional and spiritual bodies.

**The Complete Dictionary of Ailments and Diseases**-Jacques Martel 2012-07

**Art as Art**-Ad Reinhardt 1991-06-06 Ad Reinhardt is probably best known for his black paintings, which aroused as much controversy as admiration in the American art world when they were first exhibited in the 1950s. Although his ideas about art and life were often at odds with those of his contemporaries, they prefigured the ascendance of minimalism. Reinhardt’s interest in the Orient and in religion, his strong convictions about the value of abstraction, and his disgust with the commercialism of the art world are as fresh and valid today as they were when he first expressed them.
