T.C. Boyle Stories II: T. Coraghessan Boyle 2014 T.C. Boyle Stories II gathers the work from his three most recent collections along with fourteen new tales previously unpublished in book form as well as a preface in which Boyle looks back on his career as a writer of stories and the art of making them. By turns mythic and realistic, farcical and tragic, ironic and moving, Boyle's stories have mapped a wide range of human emotions. The fifty-eight stories in this new volume, written over the last eighteen years, reflect his maturing themes. Along with satires and tall tales, readers will find stories speaking to contemporary social issues, from air rage to abortion doctors, and character-driven tales of quiet power and passion. Others capture timeless themes, from first love and its consequences to confrontations with mortality, or explore the conflict between civilization and wilderness. The new stories find Boyle engagingly testing his characters' emotional and physical endurance, whether it's a group of giants being bred as weapons of war in a fictional Latin American country, a Russian woman who ignores dire warnings in returning to her radiation-contaminated home, a hermetic writer who gets more than a break in his routine when he travels to receive a minor award, or a man in a California mountain town who goes a little too far in his concern for a widow.

The Biography of Satan- Kersey Graves 101-01-01 In presenting the present edition of this work to the public the author deems it necessary only to add in the preface that it has been thoroughly revised and corrected, and that the numerous responses from those who availed themselves of a copy of the previous edition of the book, leaves the author no reason to doubt that the motive which actuated him in the publication of it will be fully realized. That motive was to expose and arrest the progress of the most terror-inciting superstition that ever nestled in the bosom of the ignorant, or that ever prostrated the energies of the human mind, and reduced its possessor to the condition of an abject, groveling and trembling slave!

Criminal Justice Ethics- Paul Leighton 2001 This collection of thought-provoking, easy-to-read essays articulates drastically different moral beliefs about the relationship between criminal justice and social justice, and the importance of ethical behavior of individuals working in the system. The essays—which include hypothetical cases as well as actual court opinions—show readers how moral beliefs are examined and defended, and encourage them to examine and defend their own positions. In many cases, the articles present different sides of an issue, often in the form of direct debates between experts (e.g., feminist scholar Catherine MacKinnon on prostitution law vs the International Committee for Prostitutes' Rights and its "World Whores' Congress Statements"; O.J. Simpson attorney Johnnie Cochran vs Yale Law Professor Akhil Reed Amar). Often includes articles that argue for unpopular or unusual positions. An introduction on ethical reasoning and ethics pedagogy is followed by sections on the nature of criminal guilt, law making, law enforcement, judicial processing, punishment and emerging issues (technology and media). Issues addressed include Drug Legalization; Prostitution; Corporate Violence; Hate Crimes; Abortion; Police Ethics; Deception & Influence; Selective Enforcement; Lawyers Ethics; Plea Bargaining & Due Process; Treatment of Inmates; Death Penalty; Cyberspace; and Media. Includes resources on professional Code of Ethics. For anyone involved in/with the criminal justice system.

Federal Justice in the Mid-Atlantic South-Peter Graham Fish 2002 Also probed is the part played by the early federal courts in America’s neutrality-based foreign policy and in promoting economic enterprise by affording national forums for credit transactions, for corporations, for patent claimants, for those who suffered losses on the sea including maritime labor, and for real property owners and claimants. Political and social control issues, some of historic significance, reached the courts in the mid-Atlantic South. Professor Fish treats the national security impulses that dominated the sedition libel trial of James Callender, the treason trial of Aaron Burr, and the trials of numerous privateers-pirates for violating the nation’s piracy and neutrality laws including the first capital case heard by a regularly constituted circuit court. The author explores judges’ invocation of higher law, their embrace of a common law of crimes and their perplexity in construing uncertain language in statutes prohibiting the international slave trade.

Complete Poison Blossoms from a Thicket of Thorn-Hakuin Zenji 2017-12-20 Following his translation of just over half the original text in 2014, Norman Waddell presents the complete teaching record of Zen master Hakuin, now available in English with extensive explanations, notes, and even the wry, helpful comments that students attending Hakuin’s lectures inscribed in their copies of the text With this volume, Norman Waddell completes his acclaimed translation of the teaching record of one of the greatest Zen masters of all time, Hakuin Ekaku (1685-1769). Hakuin lived at a time when Japanese Buddhism as a whole and his own Rinzai sect in particular were at low ebb. Through tremendous force of character and creative energy, he initiated a reform movement that swept the country, and today, all Rinzai Zen masters trace their lineage through him. This outcome is all the more extraordinary because Hakuin’s base of operations was a small temple in the country town of Hara, where he grew up, not in one of the nation’s political, cultural, or commercial centers. This book represents the first full publication of the Keisō Dokuzu in any foreign language. Inspired by the enthusiastic reception that greeted his 2014 selections from the text, Waddell returned to work and now gives us the opportunity to examine the entirety of Hakuin’s record and to benefit as never before from the example and instruction of this exuberant personality and remarkable teacher. Poison Blossoms contains a highly diverse set of materials: formal and informal presentations to monastic and lay disciples, poems, practice instructions, inscriptions for paintings, comments on koans, letters, and funeral orations. While most items are brief, easily read in a quick sitting, the book also includes extended commentaries on the Heart Sutra, one of Mahayana Buddhism’s central texts, on the famously difficult Five Ranks of Tung-shan; and on the accomplishments of his eminent predecessor Gudō Tōshoku. Having devoted himself for more than three decades to the study and translation of Hakuin’s works, Norman Waddell is peerless when it comes to conveying into English the vital, sometimes elegant, often earthy and translation of Hakuin’s works, Norman Waddell is peerless when it comes to conveying into English the vital, sometimes elegant, often earthy

Everybody’s Talkin’-Barry Monush 2009 The movies of the 1960s ran the gamut from glossy studio product to a less linear and less inhibited style of filmmaking. It was the decade during which censorship codes were demolished and the studio contract system fell apart. Every genre was strongly represented, from domestic dramas to spectacles, musicals, soap operas, and westerns. Some of the most diverse, daring, colourful, outrageous, and enduring of all motion pictures were released from 1965 to 1969. “Screen World” editor Barry Monush tells the reader why his top selections stood out among the other releases of those five years. The text is accompanied by illustrations of movie ads, tie-in book covers, soundtrack albums, sheet music, and other oddities. In addition, each film's entry includes a plot synopsis, the opening date, the studio, and a creative staff and cast listing. From “The Sound of Music to Alfie”, “In the Heat of the Night” to “The Lion in Winter”, “Bob & Carol & Ted & Alice” to “Planet of the Apes”, “Easy Rider”, and “Midnight Cowboy”, here is a pop culture feast for film buffs and all fans of that interesting point in time that was the late 1960s.

Turtleface and Beyond-Arthur Bradford 2015-02-03 Darkly funny stories by the man David Sedaris calls “the most outlandish and energetic writer I can think of” Paddling down a remote, meandering river, Georgie’s friend Otto decides to do something both spectacular and stupid—scale a sandy cliff that rises from the water and runs down its steep face, preparing for a triumphant running dive. As his friends look on, they watch something awful unfold: Otto lands with an odd smack and knocks himself unconscious, blood spilling from his nose and mouth. Georgie arrives on the scene first and sees a small turtle, its shell cracked, floating just below the water’s surface. Otto and the turtle survive the collision, though both need help, and Georgie finds his companions torn. This title story sets the tone for the rest of Arthur Bradford’s Turtleface and Beyond, a strangely funny collection featuring prosthetically limbed lovers, a snakebitten hitchhiker turned wedding crasher, a lawyer at the end of his rope, a ménage a trois at Thailand’s Resort Tik Tok, and a whole host of near disasters, narrow escapes, and complicated victories, all narrated by Georgie, who struggles with his poor decisions but finds redemption in the telling of each of his tales. Big-hearted and hilariously high-fueled, Turtleface and Beyond marks the return of a beloved and unforgettable voice in fiction.
