no means only about grammar, however. Rather, it is designed to help learners consolidate their understanding of syntactical structure through lessons that focus on how to talk about topics relevant to daily life. In addition to serving learners continuing from Volume I, Volume II will benefit those who have already studied beginning Japanese to some extent but wish to brush up on syntax. Major Features of Japanese for Busy People II, Revised 3rd Edition, will enable learners to progress smoothly through the equivalent of the latter half of a typical first-year Japanese course while gradually building speaking and listening skills. Learners approaching mid-beginner status often find themselves suddenly faced with syntax and vocabulary much more complex than what they have studied before. Such grammar and vocabulary do not appear as frequently in everyday conversation as those words and structures they have learned up to this point, necessitating that they spend ample time on review. Moreover, learners at this stage are expected to become familiar with verb tense and aspect, time expressions, conditional clauses, and other topics that require them to have a solid grasp of context and speaker intent if they are to fully understand the differences in meaning conveyed by each. Japanese for Busy People II helps overcome the above obstacles through grammar and content topics carefully selected to be appropriate to learners at this level of Japanese proficiency. The book is designed so that by practicing talking about each topic, learners will gradually and effectively acquire sentence patterns and vocabulary related to that topic. Like Volume I, Volume II is organized into several large units, each covering topics grouped under a particular theme. In this way, the book enables learners to achieve a well-balanced understanding of grammar, sentence structure, and context.

Language Planning and Language Change in Japan-Tessa Carroll 2013-07-04 Highlights the shift in language planning and language change in Japan at the end of the 20th century against a background of significant socio-cultural, political, and economic change and places them in a comparative context. Issues investigated include the concept of disorder in language; changes in official language; changing attitudes to regional dialects; and the impact of globalisation and technological advances.

Kannani and Document of Flames-Katsuei Yuasa 2005-05-26 This volume makes available for the first time in English two of the most important novels of Japanese colonialism: Yuasa Katsuei’s Kannani and Document of Flames. Born in Japan in 1910 and raised in Korea, Yuasa was an eyewitness to the ravages of the Japanese occupation. In both of the novels presented here, he is clearly critical of Japanese imperialism. Kannani (1934) stands alone within Japanese literature in its graphic depictions of the racism and poverty endured by the colonized Koreans. Document of Flames (1935) brings issues of class and gender into sharp focus. It tells the story of Tokiko, a divorced woman displaced from her Japanese home who finds herself forced to work as a prostitute in Korea to support herself and her child. Tokiko eventually becomes a landowner and oppressor of the Koreans she lives amongst, a transformation suggesting that the struggle against oppression often ends up replicating the structure of domination. In his introduction, Mark Driscoll provides a nuanced and engaging discussion of Yuasa’s life and work and of the cultural politics of Japanese colonialism. He describes Yuasa’s sharp turn, in the years following the publication of Kannani and Document of Flames, toward support for Japanese nationalism and the assimilation of Koreans into Japanese culture. This abrupt ideological reversal has made Yuasa’s early writing—initially censored for its anticolonialism—all the more controversial. In a masterful concluding essay, Driscoll connects these novels to larger theoretical issues, demonstrating how a deep understanding of Japanese imperialism challenges prevailing accounts of postcolonialism.

English Grammar for Students of Japanese- Mutsuko Endo Hudson 1994 Explains the basic terminology and concepts of English grammar, focusing on material which will most benefit students of Japanese.

Shanghai Customs Daily Returns- 1908

An Introduction to Japanese Linguistics-Natsuko Tsujimura 2013-08-28 The third edition of this established textbook has been thoroughly updated and revised. It maintains its broad coverage of topics from phonetics to language
variation, and increases its accessibility by incorporating a more descriptive, less theoretical approach. A fully updated new edition of this successful textbook introducing students to a wide range of issues, phenomena, and terminology in Japanese linguistics. Includes extensive revisions to the chapters on phonetics, syntax, and phonology, and incorporates a less theoretical, more descriptive approach. Features the author’s own data, examples, and theoretical analyses throughout. Offers an original approach by discussing first and/or second language acquisition within each chapter. Includes exercises exploring descriptive and theoretical issues and reading lists which introduce students to the research literature, both of which have been updated in this new edition.

**Language in the Law** - John Gibbons 2004

This book is a record of modes and practices in the use of language within the context of law. The papers in this volume not only examine the different situations that arise in legal processes, but they also unveil the inherent problems and impact of ambiguity and distortion in the uses of legal language, the consequences of cultural constraints on translation of legal texts, the power of interpreters in legal testimony and sources of complexity in legal register. The book examines the nexus between language and the law in various countries and cultures.

**Japanese for Professionals** - AJALT 2012-08-24

A comprehensive course for students who need to use Japanese in a business environment. "Japanese for Professionals" is a serious and detailed manual of the language of trade, commerce, and government, aimed at intermediate students who work with Japanese on a daily basis.

In 16 easy-to-follow lessons, one of America’s leading authorities on Japanese language and culture provides the basics for beginners to be able to speak and write Japanese almost immediately, then progress at their own pace. EASY JAPANESE provides full language explanations in English and focuses on effective communication in everyday situations.

**Robert's Rules in Plain English 2e** - Doris P. Zimmerman 2005-09-20

A revised edition of the bestselling Robert's Rules in Plain English, which still stands as the most concise, most user-friendly guide to parliamentary procedure on the market today. If you've ever had to run a meeting according to parliamentary procedures, you know just how difficult it is to keep track of all the rules, much less follow them. Figuring out what to say and how to say it seems an impossible task. Robert's Rules in Plain English, 2nd edition, is the solution to that problem. Not only does it provide you with the essential, basic rules in simple, straightforward English, it also includes summaries, outlines, charts, and sample dialogues so you can see exactly how these rules work in practice. With an extended glossary and new chapters on electronic meetings and internet usage, Robert's Rules in Plain English, 2nd edition, is an authoritative, modern guide to running a meeting successfully and keeping it on track.

Voices of Early Modern Japan-Constantine Nomikos Vaporis 2013-07-30 Winner of the 2013 Franklin R. Buchanan Prize for Curricular Materials awarded by the Association for Asian Studies and the Committee for Teaching About Asia (CTA) Voices of Early Modern Japan offers an accessible and well-balanced view of an extraordinary period in Japanese history, ranging from the unification of the warring states under Tokugawa Ieyasu in the early seventeenth century through the overthrow of the shogunate just prior to the opening of Japan by the West in the mid-nineteenth century. Through a close examination of primary sources from "The Great Peace," this fascinating volume offers fresh insights into the Tokugawa era—its political institutions, rigid class hierarchy, artistic and material culture, religious life, and more. Sources from all levels of Japanese society, from government documents and household records to personal correspondence and diaries, are carefully translated and examined in light of the latest scholarship. Constantine Nomikos Vaporis ably demonstrates how historians use primary documents and what can be uncovered from the words of ordinary people who lived centuries earlier. With robust reader resources and comprehensive coverage, Voices of Early Modern Japan is the perfect addition for students and interested readers seeking a fuller understanding of the Tokugawa period. For updates on web materials mentioned in the book, supplemental materials, and to contact the author, please visit voicesofearlymodernjapan.wordpress.com.

Second Language Pragmatics-Naoko Taguchi 2017-06-12 Taguchi and Roever present the latest developments in second language pragmatics research, combining acquisitional and sociolinguistic perspectives. They cover theories of pragmatics learning and research methods in investigating pragmatics, linking these with findings on the acquisition of second language pragmatics and with practice in teaching and assessing pragmatics. Discussing pragmatics in the context of multilingual societies and diverse contexts of use, they offer a broad perspective on this growing area. “Written by two leading authorities, Second Language Pragmatics offers a comprehensive review of pragmatics as an object of second language learning, instruction and assessment. The book masterfully lays out the advances made over three decades, showing in welcome descriptive detail how the field has benefited from the diverse theoretical perspectives and empirical traditions that define it today. Taguchi and Roever extend a persuasive invitation to further research on second language pragmatics as a multilingual, multicultural, and multicontextual enterprise.” Gabriele Kasper, Professor of Second Language Studies, University of Hawai‘i at Mānoa Naoko Taguchi is Associate Professor in the Modern Language Department at Carnegie Mellon University, USA Carsten Roever is Associate Professor in the School of Languages and Linguistics at the University of Melbourne, Australia Oxford Applied Linguistics Series Advisers: Anne Burns and Diane Larsen-Freeman

Kibler's Medical Terms for Interpreters-Jeanette Kibler 2018 Interpreters know that
having the right word at the right time is essential. For health care interpreters, quickly finding specialty-specific words can be challenging. Kibler's Medical Terms for Interpreters is a practical resource that will save you time. • Speeds up your word-finding. Unlike a typical dictionary, Kibler's Medical Terms for Interpreters is organized in sections by medical specialty, so you can quickly locate the specific words that will be useful for a patient encounter.

**Customs Gazette**- 1907

**Fossil Mammals of Asia**- Xiaoming Wang 2013-05-14 Fossil Mammals of Asia, edited by and with contributions from world-renowned scholars, is the first major work devoted to the late Cenozoic (Neogene) mammalian biostratigraphy and geochronology of Asia. This volume employs cutting-edge biostratigraphic and geochemical dating methods to map the emergence of mammals across the continent. Written by specialists working in a variety of Asian regions, it uses data from many basins with spectacular fossil records to establish a groundbreaking geochronological framework for the evolution of land mammals. Asia's violent tectonic history has resulted in some of the world's most varied topography, and its high mountain ranges and intense monsoon climates have spawned widely diverse environments over time. These geologic conditions profoundly influenced the evolution of Asian mammals and their migration into Europe, Africa, and North America. Focusing on amazing new fossil finds that have redefined Asia's role in mammalian evolution, this volume synthesizes information from a range of field studies on Asian mammals and biostratigraphy, helping to trace the histories and movements of extinct and extant mammals from various major groups and all northern continents, and providing geologists with a richer understanding of a variety of Asian terrains.

**Characterisation and Engineering Properties of Natural Soils, Two Volume Set**- T.S. Tan 2006-11-16 Following on from the first two volumes, published in 2002, volumes 3 and 4 of Characterisation and Engineering Properties of Natural Soils review laboratory testing, in-situ testing, and methods of characterising natural soil variability, illustrated by actual site data.

Less well-documented soil types are highlighted and the various papers take i

**Assessing Second Language Pragmatics**- S. Ross 2013-11-29 The first book-length collection of studies on the assessment of pragmatic competencies in a second or foreign language. Grounded in theoretical perspectives on communicative and interactional competencies, it examines the reception and production of speech acts through a variety of assessment methods and quantitative and qualitative analyses.

**Ecology of Riparian Forests in Japan**- Hitoshi Sakio 2008-12-22 Riparian forests along streams and rivers are diverse in species, structure, and regeneration processes, and have important ecological functions in maintaining landscape and biodiversity. This book discusses riparian forests from subpolar to warm-temperate zones, covering headwater streams, braided rivers on alluvial fans, and low-gradient meandering rivers. It presents the dynamics and mechanisms that govern the coexistence of riparian tree species, tree demography, the response to water stress of trees, and the conservation of endangered species, and focuses on natural disturbances, life-history strategies, and the ecophysiology of trees. Because many riparian landscapes have been degraded and are disappearing at an alarming rate, the regeneration of the remaining riparian ecosystems is urgent. With contributions by more than 20 experts in diverse fields, this book offers useful information for the conservation, restoration, and rehabilitation of riparian ecosystems that remain in world streams and rivers.

**Oxford Modern English Grammar**- Bas Aarts 2011-02-10 Oxford Modern English Grammar is Oxford's brand new and definitive guide to
English grammar. This book has been written by a leading expert in the field, covers both British and American English, and makes use of authentic spoken and written examples. Arranged in four clear parts for ease of use, its comprehensive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly yet authoritatively. This descriptive source of reference is invaluable for those with an interest in the English language, undergraduate and postgraduate students, and for anyone who would like a clear guide to English grammar and how it is used.

The Geology of Japan-T. Moreno 2016-03-16 It has been 25 years since publication of the most recent English language summary of the geology of Japan. This book offers an up-to-date comprehensive guide for those interested both in the geology of the Japanese islands and geological processes of island arcs in general. It contains contributions from over 70 different eminent researchers in their fields and is divided into 12 main chapters.

Quarterly Trade Returns ...-China. Hai guan zong shui wu si shu 1909

Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications-Management Association, Information Resources 2019-01-04 In a diverse society, the ability to cross communication barriers is critical to the success of any individual personally, professionally, and academically. With the constant acceleration of course programs and technology, educators are continually being challenged to develop and implement creative methods for engaging English-speaking and non-English-speaking learners. Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications is a vital reference source that examines the relationship between language education and technology and the potential for curriculum enhancements through the use of mobile technologies, flipped instruction, and language-learning software. This multi-volume book is geared toward educators, researchers, academics, linguists, and upper-level students seeking relevant research on the improvement of language education through the use of technology.

Hiroshima-John Hersey 2020-06-23 Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Tokyo as a Global City-Toshio Kikuchi 2018-03-28 This book examines Tokyo’s changes, current challenges, and future trends through a new kind of regional geography and serves as an important source of comprehensive information about the past, present, and future perspectives of Tokyo as a global city. Regional geography relies on two main approaches. The traditional one addresses each geographical element of a region individually and in depth, in a descriptive and static manner. The other focuses on a region’s specific phenomena and realities as a starting point and proceeds to identify the region’s constituent elements and their interactions, which it records and explains in a systematic and dynamic manner. The present volume, unlike its predecessors, relies on the dynamic approach and endeavors to offer a fresh view of Tokyo’s new and diverse geographical realities, analyzed in a holistic, systematic manner allowing identification of its specific features. The book covers a broad range of topics including landform variations and volcanic activity, biodiversity concerns, transportation management, waste management, population issues, religious functions, and urban tourism, all of which facilitate understanding of the unique characteristics of Tokyo. Extensive views from different fields of studies make the book a valuable reference to comprehend both the development of Tokyo into a global city and its sustainability.
**Oxford Take Off in Japanese**- Lynne Strugnell  
2000 Oxford Take Off in Japanese is designed specifically to meet the needs of beginner speakers learning Japanese on their own. With 5 hours of audio, this course helps develop listening and comprehension skills from the very first lesson, so that you learn to understand, speak, and read authentic Japanese quickly and easily. There are 14 units: every unit contains dialogues and activities, pronunciation practice, detailed grammatical help, cultural information, reading practice, test and revision sections, language learning techniques. Cassette and Book

**An Introduction to Japanese - Syntax, Grammar & Language**- Michiel Kamermans  
2010-03 Starting at the very basics and working its way up to important language constructions, "An introduction to Japanese" offers beginning students, as well as those doing self-study, a comprehensive grammar for the Japanese language. Oriented towards the serious learner, there are no shortcuts in this book: no romanised Japanese for ease of reading beyond the introduction, no pretending that Japanese grammar maps perfectly to English grammar, and no simplified terminology. In return, this book explains Japanese the way one may find it taught at universities, covering everything from basic to intermediary Japanese, and even touching on some of the more advanced constructions.

**Natural Disaster and Coastal Geomorphology**- Shigeko Haruyama  
2016-06-23 This book deals with the Tsunami intrusion in the lower plain in the Tohoku region and role played by the coastal and fluvial landforms in the damages. The land-use patterns and the recent urbanization has also been partly responsible for a risk level enhancement. The 2011 East Japan Earthquake and Tsunami has violently hit the coastal plain in the Tohoku and Kanto regions. The coastal geomorphology of these regions have played an important role in the impacts of this natural disaster. The authors introduce tectonic settings, explain and assess these different risks, and discuss future disaster prevention and mitigation planning.
