**Politics in the Republic of Ireland**-John Coakley
2004-08-02 Politics in the Republic of Ireland is newly available in a fully revised third edition. Building on the success of the first two editions, it continues to provide an authoritative introduction to all aspects of politics in the Irish Republic. Published in association with the Political Studies Association of Ireland, and written by some of the foremost experts on Irish politics, it explains, analyzes and interprets the background and processes of Irish government. Crucially it provides the student with the very latest developments. Coverage includes: * all aspects of the Irish political system, including the constitution, electoral system, parties, the links between member sof parliament and their constituents, the government, the President, and the Taoiseach * an exploration of the foundations of statehood, Irish society and political culture * Ireland's relationship with Britain and
Politics in the Republic of Ireland - John Coakley
2017-12-01 Politics in the Republic of Ireland is now available in a fully revised sixth edition. Building on the success of the previous five editions, it continues to provide an authoritative introduction to all aspects of the government and politics in the Republic of Ireland. Written by some of the foremost experts on Irish politics, it explains, analyses and interprets the background to Irish government and contemporary political processes. It devotes chapters to every aspect of contemporary Irish government and politics, including the political parties and elections, the constitution, the Taoiseach and the governmental system, women and politics, the role of parliament, and Ireland’s place within the European Union. Bringing students up to date with the very latest developments, especially with the upheaval in the Irish party system, Coakley and Gallagher combine substance with a highly readable style, providing an accessible textbook that meets the needs of all those who are interested in knowing how politics and government operate in Ireland.

Politics in the Republic of Ireland - John Coakley
2012-12-12 Politics in the Republic of Ireland is now available in a fully revised fourth edition. Building on the success of the previous three editions, this text continues to provide an authoritative introduction to all aspects of politics in the Republic of Ireland. Written by some of the foremost experts on Irish politics, it explains, analyzes and interprets the background to Irish government and contemporary political processes. Crucially, it brings the student up-to-date with...
the very latest developments. New patterns of government formation, challenges to the established political parties, ever-deepening, if sometimes ambivalent, involvement in the process of European integration, a growing role in the politics of Northern Ireland and sustained discussion of gender issues are among these developments – along with evidence, revealed by several tribunals of enquiry, that Irish politics is not as free of corruption as many had assumed.

**Crises of the Republic**
Hannah Arendt 1972 In this stimulating collection of studies, Dr. Arendt, from the standpoint of a political philosopher, views the crises of the 1960s and early 70s as challenges to the American form of government. The book begins with "Lying in Politics," a penetrating analysis of the Pentagon Papers that deals with the role of image-making and public relations in politics. "Civil Disobedience" examines the various opposition movements from the Freedom Riders to the war resisters and the segregationists. "Thoughts on Politics and Revolution," cast in the form of an interview, contains a commentary to the author's theses in "On Violence." Through the connected essays, Dr. Arendt examines, defines, and clarifies the concerns of the American citizen of the time.--From publisher description.

**Republic of Denial**
Michael Janeway 1999-01-01 With wit, clarity, and an eye for offbeat cultural indicators, Janeway examines the full complex of forces that have corroded our press, politics, and public life.

**Keeping the Republic**
Christine Barbour 2016-11-19 This refreshed and dynamic Eighth Edition of Keeping the Republic revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what, and how they should get it. The exploding possibilities of the digital age make this task all the more
urgent and complex. Christine Barbour and Gerald Wright, the authors of this bestseller, continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it. The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic.

**Political Resources on the Net: Republic of Iraq**
Features a collection of Internet resources on politics in the Republic of Iraq, compiled by Agora Telematica. Links to information on the constitution, elections, political parties, embassies, and the government.

**The Struggle for Democratic Politics in the Dominican Republic**
Jonathan Hartlyn 1998 Over the past several decades, the Dominican Republic has experienced striking political stagnation in spite of dramatic socioeconomic transformations. In this work, Jonathan Hartlyn offers a new explanation for the country's political evolution, based on

**A Republic of Men**-Mark E. Kann 1998-04-01 What role did manhood play in early American Politics? In A Republic of Men, Mark E. Kann argues that the American founders aspired to create a "republic of men" but feared that "disorderly men" threatened its birth, health, and longevity. Kann demonstrates how hegemonic norms of manhood–exemplified by "the Family Man," for instance--were deployed as a means of stigmatizing unworthy men, rewarding responsible men with citizenship, and empowering exceptional men with positions of leadership and authority, while excluding women from public life. Kann suggests that the founders committed themselves in theory to the democratic proposition that all men were created free and equal and could not be governed without
their own consent, but that they in no way believed that "all men" could be trusted with equal liberty, equal citizenship, or equal authority. The founders developed a "grammar of manhood" to address some difficult questions about public order. Were America's disorderly men qualified for citizenship? Were they likely to recognize manly leaders, consent to their authority, and defer to their wisdom? A Republic of Men compellingly analyzes the ways in which the founders used a rhetoric of manhood to stabilize American politics.

**Popular Politics in an Aristocratic Republic**
Maartje van Gelder
2020-05-06 Popular Politics in an Aristocratic Republic explores the different aspects of political actions and experiences in late medieval and early modern Venice. The book challenges the idea that the city of Venice knew no political conflict and social contestation during the medieval and early modern periods. By examining popular politics in Venice as a range of acts of contestation and of constructive popular political participation, it contributes to the broader debate about premodern politics. The volume begins in the late fourteenth century, when the demographical and social changes resulting from the Black Death facilitated popular challenges to the ruling class’s power, and finishes in the late eighteenth century, when the French invasion brought an end to the Venetian Republic. It innovates Venetian studies by considering how ordinary Venetians were involved in politics, and how popular politics and contestation manifested themselves in this densely populated and diverse city. Together the chapters propose a more nuanced notion of political interactions and highlight the role that ordinary people played in shaping the city’s political configuration, as well as how the authorities monitored and punished contestation. Popular Politics in an Aristocratic Republic combines recent historiographical approaches to classic themes from political, social, economic,
and religious Venetian history with contributions on gender, migration, and urban space. The volume will be essential reading for students of Venetian history, medieval and early modern Italy and Europe, political and social history.

**Studies in the Politics of Aristotle and the Republic of Plato** - Isaac Althaus Loos 1899

**Affairs of Honor** - Joanne B. Freeman 2002-01-01 Offering a reassessment of the tumultuous culture of politics on the national stage during America's early years, when Jefferson, Burr, and Hamilton were among the national leaders, Freeman shows how the rituals and rhetoric of honor provides ground rules for political combat. Illustrations.

**Keeping the Republic** - Christine Barbour 2016-11-19 This refreshed and dynamic Eighth Edition of Keeping the Republic revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what, and how they should get it. The exploding possibilities of the digital age make this task all the more urgent and complex. Christine Barbour and Gerald Wright, the authors of this bestseller, continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it. The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic. Keeping the Republic, The Essentials is identical to the full version of the text, minus the three policy chapters.

**Politics and Government in the Federal Republic of Germany** - Carl Christoph Schweitzer 1984
Disputes the conventional wisdom that the birth of the United States was a relatively painless and unexceptional one. The author tells the story of how the euphoria surrounding Washington's inauguration quickly soured and the nation almost collapsed.

Theodore J. Lowi and Joseph Romance debate the promises and pitfalls of the two-party system by outlining the history, evolution, and current status of this perennial debate. Supplemented by a collection of primary documents covering the entire history of the controversy, this book will be indispensable for American government, political parties, elections, and political science courses. Visit our website for sample chapters!

Mass Politics In The People's Republic - Alan P L Liu 2019-03-04

Sport and Politics in the Republic of Korea - Kim Seon-Jong 1999

Keeping the Republic - Christine Barbour 2018-11-23
"I consistently recommend the book to [colleagues] who are teaching American government for the first time. It is easy to use, and it provides all of the basics that any student would ever need to know. It is easy for students to read, and it challenges their preconceived notions about the world..."
— James W. Stoutenborough, Idaho State University
Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction and balance from bias, and influence the message through informed citizenship. Keeping the Republic draws students into the study of American politics, showing them how to think critically about "who gets what, and how" while exploring the twin themes of power and...
citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics, and to be savvy consumers of political information. The thoroughly updated Ninth Edition considers how a major component of power is who controls the information, how it is assembled into narratives, and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power – the ability to create and share their own narratives – while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic, and some high-tech ways to lose it. Throughout the text and its features, authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up-to-date with 2018 election results and analysis, as well as the impact of recent Supreme Court rulings, shifting demographics, and emerging and continuing social movements, Keeping the Republic, Ninth Edition is a much-needed resource to help students make sense of politics in America today. Keeping the Republic, The Essentials is identical to the full version of the text, minus the three policy chapters. A Complete Teaching & Learning Package SAGE Vantage Digital Option Engage, Learn, Soar with SAGE Vantage, an intuitive digital platform that delivers Keeping the Republic, Ninth Essentials Edition textbook content in a learning experience carefully designed to ignite student engagement and drive critical thinking. The Republic of Conscience-Gary Hart 2016
This book is a meditation on the growing gap between the founding principles of the United States Constitution and our current political landscape. Going back as early as 400 BC, the idea of a true republic has been threatened by narrow, special interests taking precedence over the commonwealth. The U.S. Constitution was drafted to protect against such corruption, but as this book shows, America is nowhere near the republic it set out to be almost 250 years ago, falling to the very misconduct it hoped to avoid.

Plebs and Politics in the Late Roman Republic-Henrik Mouritsen 2001-06-07
Plebs and Politics in the Late Roman Republic analyses the political role of the masses in a profoundly aristocratic society. Constitutionally the populus Romanus wielded almost unlimited powers, controlling legislation and the election of officials, a fact
which has inspired 'democratic' readings of the Roman republic. In this book a distinction is drawn between the formal powers of the Roman people and the practical realization of these powers. The question is approached from a quantitative as well as a qualitative perspective, asking how large these crowds were, and how their size affected their social composition. Building on those investigations, the different types of meetings and assemblies are analysed. The result is a picture of the place of the masses in the running of the Roman state, which challenges the 'democratic' interpretation, and presents a society riven by social conflicts and a widening gap between rich and poor.

The Politics of Pessimism
Alan Grubb 1996 Despite his importance in conservative politics of the early years of the Third Republic of France, Duc Albert de Broglie has been largely ignored by historians. Historian Alan Grubb seeks to right that oversight in this book. Broglie was the most outstanding, influential, and controversial figure of the conservative group. He bore an illustrious family name, but because of the vicissitudes of French politics, he entered public life only in 1871, at the age of fifty, following the collapse of the Second Empire. Elected to the National Assembly, he became the acknowledged, if not always liked, leader of the monarchist majority, the spokesman of conservative union, and the Right's most effective - and to the republicans, confounding - political strategist. As such, he played a central role in political developments of the day - in the overthrow of Thiers, in the attempt to restore the monarchy, in the creation of the seven-year presidency or Septennat, in the monarchists' reluctant adoption of a republican constitution in 1875, and finally in the Right's desperate attempt to hold on to power in the so-called Seize Mai affair of 1877, the Republic's first major political crisis. There is no biography of Broglie in either French or English, a lack that Grubb tries to remedy in this study.
The author uses Broglie's published memoirs and family archives of his close friends to examine his political career and conservative politics of the period. For in Broglie's "failure" there was also the Right's and his own "brief passage in affairs," as he later called it, that proved to be an important one in French history: for himself, the Right, the Notables, and the Republic itself.

**Republic of Taste** Catherine E. Kelly 2016-06-22 Since the early decades of the eighteenth century, European, and especially British, thinkers were preoccupied with questions of taste. Whether Americans believed that taste was innate—and therefore a marker of breeding and station—or acquired—and thus the product of application and study—all could appreciate that taste was grounded in, demonstrated through, and confirmed by reading, writing, and looking. It was widely believed that shared aesthetic sensibilities connected like-minded individuals and that shared affinities advanced the public good and held great promise for the American republic. Exploring the intersection of the early republic's material, visual, literary, and political cultures, Catherine E. Kelly demonstrates how American thinkers acknowledged the similarities between aesthetics and politics in order to wrestle with questions about power and authority. Judgments about art, architecture, literature, poetry, and the theater became an arena for considering political issues ranging from government structures and legislative representation to qualifications for citizenship and the meaning of liberty itself. Additionally, if taste prompted political debate, it also encouraged affinity grounded in a shared national identity. In the years following independence, ordinary women and men reassured themselves that taste revealed larger truths about an individual's character and potential for republican citizenship. Did an early national vocabulary of taste, then, with its privileged visuality, register beyond the...
debates over the ratification of the Constitution? Did it truly extend beyond political and politicized discourse to inform the imaginative structures and material forms of everyday life? Republic of Taste affirms that it did, although not in ways that anyone could have predicted at the conclusion of the American Revolution.

**A Glossary of Political Terms of the People's Republic of China** - Gucheng Li 1995

"A glossary of political terms of the People's Republic of China is a collection of 560 important and frequently-used Chinese political terms and phrases that appeared between 1949 and 1990. Each entry begins with an explanation of the term and its origin, a description of how and under what circumstances the term was used, and a discussion of the changes of meaning over the years, as well as the political and social significance of the words."--Jacket.

**Roman Masculinity and Politics from Republic to Empire** - Charles Goldberg

2020-12-31

This volume explores the role that republican political participation played in forging elite Roman masculinity. It situates familiarly "manly" traits like militarism, aggressive sexuality, and the pursuit of power within a political system based on power sharing and cooperation. In deliberations in the Senate, at social gatherings, and on military campaign, displays of consensus with other men greased the wheels of social discourse and built elite comradery. Through literary sources and inscriptions that offer censorious or affirmative appraisal of male behavior from the Middle and Late Republic (ca. 300 - 31 BCE) to the Principate or Early Empire (ca. 100 CE), this book shows how the vir bonus, or "good man," the Roman persona of male aristocratic excellence, modulated imperatives for personal distinction and military and sexual violence with political cooperation and
moral exemplarity. While the advent of one-man rule in the Empire transformed political power relations, ideals forged in the Republic adapted to the new climate and provided a coherent model of masculinity for emperor and senator alike. Scholars often paint a picture of Republic and Principate as distinct landscapes, but enduring ideals of male self-fashioning constitute an important continuity. Roman Masculinity and Politics from Republic to Empire provides a fascinating insight into the intertwined nature of masculinity and political power for anyone interested in Roman political and social history, and those working on gender in the ancient world more broadly.

**The Constitution of Iran**

Asghar Schirazi 1998-12-31

With the recent landslide election victory of the reformist President Khatami in Iran, the relationship between religion and politics in Islam is likely to change dramatically. This book is a milestone in our understanding of the ideology and practice of an Islamic state. Asghar Schirazi chronicles and analyzes political life in Iran since the revolution, showing the gradual transformation of the state from intended theocracy and republic to a hierocracy in which Islam and the shari'a play a subordinate role. He thus provides the context for the dramatic debate between reformists and traditionalists in Iran. Schirazi addresses the major contradictions inherent in the Iranian constitution--between its legalistic and democratic components on the one hand, and between the alleged potential of a legally and ideologically interpreted Islam to resolve social problems as against the growing evidence that this Islam is an inadequate legal and political basis for government. He charts the gradual replacement of Islamic legalism with a political practice based centrally on the interests of the state, and points to a growing crisis of the shari'a that will open the way for possible developments of Islam in the future.

**Czechoslovakia and the**

fan.football.sony.net on

13/21 October 27, 2021 by guest
Czech Republic in World Politics - Ladislav Cabada 2011
This book describes and analyzes the Czechoslovak and Czech positions in the international system during the course of the 20th century. The authors focus on the key periods and turning points in the role of the small Central European state in the international system as well as on the significant actors formulating Czechoslovak foreign policy from the inside and influencing it from the outside. The second part of the book is analytical and focuses on the key issues regarding the change of the position of Czechoslovakia and the Czech Republic after 1993 in world politics. It also tracks the formulation of Czech foreign policy priorities and strategies in today's globalized world after the end of bipolar confrontation.

Politics in the Republic of South Africa - Leonard Monteath Thompson 1966

Politics of Control - Chang-tai Hung 2021-01-31
Using a unique interdisciplinary, cultural-institutional analysis, Politics of Control is the first comprehensive study of how, in the early decades of the People’s Republic of China, the Chinese Communist Party reshaped people’s minds using multiple methods of control. With newly available archival material, internal circulars, memoirs, interviews, and site visits, the book explores the fascinating world of mass media, book publishing, education, religion, parks, museums, and architecture during the formative years of the republic. When the Communists assumed power in 1949, they projected themselves as not only military victors but also as peace restorers and cultural protectors. Believing that they needed to manage culture in every arena, they created an interlocking system of agencies and regulations that was supervised at the center. Documents show, however, that there was internal conflict. Censors, introduced early at the Beijing Daily, operated under the “twofold leadership” of municipal-level editors but with final
authorization from the Communist Party Propaganda Department. Politics of Control looks behind the office doors, where the ideological split between Party chairman Mao Zedong and head of state Liu Shaoqi made pragmatic editors bite their pencil erasers and hope for the best. Book publishing followed a similar multi-tier system, preventing undesirable texts from getting into the hands of the public. In addition to designing a plan to nurture a new generation of Chinese revolutionaries, the party-state developed community centers that served as cultural propaganda stations. New urban parks were used to stage political rallies for major campaigns and public trials where threatening sects could be attacked. A fascinating part of the story is the way in which architecture and museums were used to promote ethnic unity under the Chinese party-state umbrella. Besides revealing how interlocking systems resulted in a pervasive method of control, Politics of Control also examines how this system was influenced by the Soviet Union and how, nevertheless, Chinese nationalism always took precedence. Chang-tai Hung convincingly argues that the PRC’s formative period defined the nature of the Communist regime and its future development. The methods of cultural control have changed over time, but many continue to have relevance today.

Republic of Wrath-James. A. Morone 2020-09-08 A prize-winning political scientist untangles the deep roots of tribalism in America. American politics seems to be in an unprecedented uproar. But in this revelatory work of political history, James A. Morone shows that today's rancor isn't what's new -- the clarity of the battle lines is. Past eras were full of discord, but the most contentious question in American society - - Who are we? -- never split along party lines. Instead, each party reached out to different groups on the margins of power: immigrants, African Americans, and women. But, as the United States underwent profound societal
transformations from the Civil War to the populist explosion to the Great Migration to civil rights to the latest era of immigration, the party alignment shifted. African Americans conquered the old segregationist party and Democrats slowly evolved into the party of civil rights, immigration, and gender rights. Republicans turned whiter and more nativist. The unprecedented party lineup now injects tribal intensity into every policy difference. Republic of Wrath tells the story of America as we've never heard it before, explaining the origins of our fractious times and suggesting how we might build a more robust republic.

**Writing the English Republic**
David Norbrook
2000-01-28

'[A] marvellously original, densely researched study of the English republican imagination.' Tom Paulin, The Independent

**Politics with Principle**
Michael J. Kerrigan 2010

"Politics with Principle: Ten Characters with Character" validates the belief that it is possible for public servants to achieve success in the political arena without lying, cheating, or stealing along the way. It is the author's hope that this book will deepen the reader's appreciation for all in political life who conduct themselves honorably as well as encourage future aspirants of good character to consider public service. This book shows a rising generation the extent to which their own future will depend on the character traits they build in the present. By studying the exemplary characters showcased within, students of politics will be able to imitate their virtuous habits of life, thought, and action. About the Author Michael J. Kerrigan has forty-two years of Washington lobbying and business consulting experience, working closely with the government, political, corporate, and technology sectors. He is the founder and principal of Kerrigan & Associates, Inc., a Washington-based management consulting and lobbying firm. Mr. Kerrigan has been a teacher, coach,
congressional campaign manager, and guest lecturer. He has served as an international political liaison to the Vatican for a conference on disabilities and as a U.S. observer, investigating the war-torn regions of Northern Ireland, Latin America, and the Middle East. He also served as an ACYPL delegate to Ireland and to the Federal Republic of Germany. Praise for "Politics with Principle" Michael is a valued friend, and I respect his knowledge and understanding of our complicated political environment. In a time of much cynicism, this book examines those who represent the best of what makes our political system work and underscores that good character is good politics. From my more than fifty-five years in the public relations business, I couldn't agree more. --"Howard J. Rubenstein, Public Relations Executive, New York, NY"

Today public cynicism about government officials is very high. Michael Kerrigan's well-done analysis of several people who have served with distinction reminds us that public service remains our highest calling and that it can and should be done well. --"Joel Klein, Chancellor, New York City Schools, New York, NY" Michael Kerrigan is a highly principled and deeply religious man. In "Politics with Principle: Ten Characters with Character," he finds these same qualities in ten of his "pals in politics." Because his probing questions are directed to close friends, the reader will discover, in their verbatim responses, some interesting nuggets about public figures that would never be found in a "Who's Who." --"Charles S. Robb, former Governor and United States Senator, Virginia" I have known Mike for many years, both socially and professionally. His insight into how government works and the people that make it work are the best in Washington. I know many of the characters in his book and share his assessments of their characters and abilities. The book will be a refreshing read at a time when the American people are questioning our political institutions and its leaders. --"Thomas Hale Boggs, Jr., Esq., Patton Boggs
Ireland and the Politics of Change - William J. Crotty
2014-06-17 Ireland and the Politics of Change provides a timely assessment of the fundamental changes that have occurred in Irish society over the last several decades from the standpoint of their political significance. There is a particular concern with the leadership role of government and other political institutions in stimulating, managing and responding to the changes taking place that are of fundamental importance to understanding contemporary politics and today's Ireland in the world community. Considerable social, economic, demographic and international change has taken place within Ireland (and Northern Ireland) and without in relation to the rest of the world, and particularly in response to the association with the European Union. Ireland and the Politics of Change examines institutional developments, economic forces, demographic and attitudinal profiles and group-based (religious, gender, class) concerns as they have evolved and assesses their significance for policy enactment and political representation.

Party-Society Relations in the Republic of Cyprus - Giorgos Charalambous
2019-12-12 The Republic of Cyprus' social and political culture is deeply partitocratic, with a close relationship between state apparatus and the parties that influence the government's decisions. However, little is known about the social and political implications of the above traits, and even less about how parties influence and are influenced by society at large. The concept of linkage, which refers to the linking of citizens with government and the political process, is vital in the study of the electoral or ideological considerations of parties. Parties' decisions regarding their organization and image correlates with the effort made to keep up with public opinion. Party-Society Relations in the Republic of Cyprus adds a new dimension to the study of linkage, considering the complexity of
civil society as well as exploring the dynamics of political parties. Bringing together specialists from a range of disciplines, it examines the wider effects of partitocracy on democracy and uses it as a frame for exploring the construction, maintenance or deformation of links between social groups and parties. Through its analysis of both the partisan and societal aspects of party-social relations, it illuminates larger questions concerning the strategic complexity involved when politics and society interact. Approaching the Republic of Cyprus as a representative case study of partitocratic political culture, this book is a key resource for those interested in party and civil society politics, as well as Cypriot, Mediterranean and South-East European politics.

**Broadcasting Laws**-Oguz Akalin 1979

**The Republic of Korea in Power Politics**-Han-Pom Chung 1952

**Essential Goals in World Politics**-Jisi Wang 2021 This book presents a unique effort to apply political philosophy to realities of the world. Among numerous objectives that states, politicians, and individuals try to reach, some are vague, like power, interest, and happiness. Some others, like democracy, order, and rule of law, are ways and means to serve more fundamental purposes. While national reunification is seen as prerequisite on the political agenda of the Peoples Republic of China and both South and North Koreas, and religious purity is regarded as essential to many Muslim communities, these are not universally accepted principal goals in the world. The author identifies and defines security, wealth, faith, justice, and freedom as five ultimate goals in world politics and explains why they are central. Without jargons and using many cases in China and
other countries, the author illustrates that different countries at different times have varied priorities in their national politics, but they must provide security, sustain economic growth, set up a value system, maintain social justice, and secure personal freedom for their citizens. Although the world today has been relatively peaceful and accumulated much more wealth as compared to the past centuries, vacuums of faith and morality, conflicting beliefs, and lack of social justice are threatening mankind. In theory, the five ultimate goals should be reached simultaneously and reinforce each other. However, in practice they are often in contradiction. For example, national security might be strengthened at the expense of prosperity, and industrialization for economic growth has sacrificed nontraditional security interests such as the environment. The accumulation of wealth often results in its unequal distribution and grievances about injustice, and freedom and equality are regarded by some political thinkers as "natural enemies" to each other. A virtuous state should be able to reach all the five goals, while a bad state may not have even one of them. Looking around the world today, Denmark in Europe and Japan in Asia are closer to a virtuous state than most other countries despite their own deficiencies, but they are generally homogeneous in terms of ethnicity and culture. Singapore, with its ethnic diversity, has to limit freedom to obtain other goals. This book compares the development paths of China, the United States, and some other countries to demonstrate their advantages and disadvantages in becoming a better polity.

Understanding Chinese Politics - Neil Collins
2012-10-30 The Chinese political system is the subject of much media and popular comment in part because China supports an economy with an apparently inexorable dynamic and impressive record of achievement. This book provides a comprehensive introduction to China's political system,
outlining the major features of the Chinese model and highlighting its claims and challenges. It explores the central role of the Communist Party in the country's politics and the way in which the Party controls most elements of the political system. The book also draws parallels with previous historical periods in China's history. Finally, it addresses the question of what kind of role the People's Republic of China will play in global politics as a whole, the implications for the West and the re-balancing of relations between China and its neighbors.

Dictionary of the Politics of the People's Republic of China - Colin Mackerras
2003-12-16 As China's political and economic development comes under closer scrutiny, this Dictionary will prove invaluable to anyone with an interest in contemporary China. As well as proving valuable to students and academics of political science, economics, history and Asian studies, it will be of use to government officials, business people and media professionals with current or future connections in the region. The main topics covered by the Dictionary are:

* major political processes and events
* key issues in domestic policy
* China's evolving foreign policy environment
* key political personalities
* major political institutions and groupings
* important aspects of the legal system.
