A New Systematic Theology of the Christian Faith

Robert H. Reymond 2001-01-31 3rd edition

Prolegomena. A broad, systematic statement of classic Reformed faith, now revised and updated, to serve as a textbook for undergraduate and graduate courses in systematic theology. The book develops a Christian faith that is biblical, historical, and systematic. In the Preface, Dr. Reymond states: "Our book is intended to be a systematic theology, where systematic theology is the Christian faith that is biblically developed, historically informed, and systematically developed."

The 8 Great Debates of Bible Prophecy - Ron Rhodes 2014-08-01

You’ve heard about the tribulation, millennium, rapture, and antichrist, but you may wonder what’s all the debating about? Do most Christians agree on the big issues? And what about dispensationalism, interpretive views, timing of events…are they too complex for most folks to understand? Not at all! In this concise and easy-to-read review, respected Bible teacher Ron Rhodes identifies eight of the most important end-times discussions. Avoiding complex arguments, he highlights the most important biblical passages, summarizes a few of the most popular interpretations, and provides candid conclusions. He demonstrates that the Bible’s end-times teaching is intended to be a blessing for every believer. As you compare and contrast the various viewpoints, you’ll be able to enjoy constructive conversations with other Christians and support your own informed convictions. You’ll also enrich your reading of the Scriptures and see how passages fit together in God’s great plan for the ages.

From Age to Age - Keith A. Mathison 2009

Using the narrative method of biblical theology, From Age to Age traces the eschatological themes of Scripture from Genesis to Revelation, emphasizing how each book of the Bible develops these themes that culminate in the coming of Christ and showing how individual texts fit into the overarching picture.

A Systematic Theology for the 21st Century - Volume 9-12

Ecclesiology - Angelology - Eschatology - Epilogue

Edward G. Rice 2020-06-16

Description: This book contains volumes 9-12 of "A Systematic Theology for the 21st Century." A Christian, being one who has individually confessed and accepted the atoning blood of Jesus Christ, the only begotten Son of God, has a quickened, corrected, and personal relationship with the LORD God and Creator. They also have a charge from him that they prayerfully develop a theology. This thorough carefully assembled Systematic Theology can be a great help. Volume 9 Ecclesiology is the doctrine of the ecclesia, translated to English as the Church. Three integral parts of the Church are the called, the gathered, and the local. Volume 10 Angelology. Much has been written about angels, more has been presumed and misunderstood. The Holy Bible has no dissertation or thesis on the subject, but it does provide tremendous insights into angels. Even though it is not a theme of the Bible, there is no need for Christians to know everything about angels, and that fact can greatly benefit the believer. Volume 11 Eschatology is the study of last things. The Bible says: Behold, he cometh with clouds; and every eye shall see him, and they also which pierced him, and all kindreds of the earth shall wail because of him. Even so, Amen." (Revelation 1:7). The hopes by which the modern West has lived are widely understood to have failed. At the outset of the third millennium, we see the ideology of historical progress for what it is -- a myth that can no longer provide humanity with grounds for true hope. Hope Against Hope is a fresh and skillful way to explore the major images of eschatology -- the Antichrist, the millennium, the last judgment, the kingdom of God, and others -- proposing the category of imagination as the key to understanding these significant topics. The authors blend throughout the various images of eschatology, bringing their combined expertise for the inner creation, and they argue for the relevance of God's eschatology for Christians living in the present.
