An Introduction to Islamic Finance

Shari’a is the aspect of Islamic financial products an alternative to socially responsible investments (Khan, 2009). The last reason is a matter of religious duty as Islam teaches that it is a moral obligation to use financial resources in a way that promotes social justice and moral values (Hani, 2015).

The Handbook of Research on Theory and Practice of Global Islamic Finance provides emerging research on the latest global Islamic economic practices. The book is interdisciplinary, and theories, practice, and key issues are presented simultaneously, introducing new ideas and techniques to the field.
