**Getting to Yes with Yourself**-William Ury 2015-01-20 William Ury, coauthor of the international bestseller Getting to Yes, returns with another groundbreaking book, this time asking: how can we expect to get to yes with others if we haven’t first gotten to yes with ourselves? Renowned negotiation expert William Ury has taught tens of thousands of people from all walks of life—managers, lawyers, factory workers, coal miners, schoolteachers, diplomats, and government officials—how to become better negotiators. Over the years, Ury has discovered that the greatest obstacle to successful agreements and satisfying relationships is not the other side, as difficult as they can be. The biggest obstacle is actually our own selves—our natural tendency to react in ways that do not serve our true interests. But this obstacle can also become our biggest opportunity, Ury argues. If we learn to understand and influence ourselves first, we lay the groundwork for understanding and influencing others. In this prequel to Getting to Yes, Ury offers a seven-step method to help you reach agreement with yourself first, dramatically improving your ability to negotiate with others. Practical and effective, Getting to Yes with Yourself helps readers reach good agreements with others, develop healthy relationships, make their businesses more productive, and live far more satisfying lives.

**The Power of a Positive No**-William Ury 2007-02-27 No is perhaps the most important and certainly the most powerful word in the language. Every day we find ourselves in situations where we need to say No—to people at work, at home, and in our communities—because No is the word we must use to protect ourselves and to stand up for everything and everyone that matters to us. But as we all know, the wrong No can also destroy what we most value by alienating and angering people. That’s why saying No the right way is crucial. The secret to saying No without destroying relationships lies in the art of the Positive No, a proven technique that anyone can learn. This indispensable book gives you a simple three-step method for saying a Positive No. It will show you how to assert and defend your key interests; how to make your No firm and strong; how to resist the other side’s aggression and manipulation; and how to do all this while still getting to Yes. In the end, the Positive No will help you get not just to any Yes but to the right Yes, the one that truly serves your interests. Based on William Ury’s celebrated Harvard University course for managers and professionals, The Power of a Positive No offers concrete advice and practical examples for saying No in virtually any situation. Whether you need to say No to your customer or your coworker, your employee or your CEO, your child or your spouse, you will find in this book the secret to saying No clearly, respectfully, and effectively. In today’s world of high stress and limitless choices, the pressure to give in and say Yes grows greater every day, producing overload and overwork, expanding e-mail and eroding ethics. Never has No been more needed. A Positive No has the power to profoundly transform our lives by enabling us to say Yes to what counts—our own needs, values, and priorities. Understood this way, No is the new Yes. And the Positive No may be the most valuable life skill you’ll ever learn!

The Art of Negotiation
Michael Wheeler 2013-10-08
A member of the world-renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. A member of the world-renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. For many years, two approaches to negotiation have prevailed: the “win-win” method exemplified in Getting to Yes by Roger Fisher, William Ury, and Bruce Patton; and the hard-bargaining style of Herb Cohen’s You Can Negotiate Anything. Now award-winning Harvard Business School professor Michael Wheeler provides a dynamic alternative to one-size-fits-all strategies that don’t match real world realities. The Art of Negotiation shows how master negotiators thrive in the face of chaos and uncertainty. They don’t trap themselves with rigid plans. Instead they understand negotiation as a process of exploration that demands ongoing learning, adapting, and influencing. Their agility enables them to reach agreement when others would be stalemated. Michael Wheeler illuminates the improvisational nature of negotiation, drawing on his own research and his work with Program on Negotiation colleagues. He explains how the best practices of diplomats such as George J. Mitchell, dealmaker Bruce Wasserstein, and Hollywood producer Jerry
Weintraub apply to everyday transactions like selling a house, buying a car, or landing a new contract. Wheeler also draws lessons on agility and creativity from fields like jazz, sports, theater, and even military science.

Getting to Yes - Roger Fisher 2013 "Since it was first published in 1981 Getting to Yes has become a central book in the Business Canon: the key text on the psychology of negotiation. Its message of "principled negotiations"—finding acceptable compromise by determining which needs are fixed and which are flexible for negotiating parties—has influenced generations of businesspeople, lawyers, educators and anyone who has sought to achieve a win-win situation in arriving at an agreement. It has sold over 8 million copies worldwide in 30 languages, and since it was first published by Penguin in 1991 (a reissue of the original addition with Bruce Patton as additional coauthor) has sold over 2.5 million copies—which places it as the #10 bestselling title overall in Penguin Books, and #3 bestselling nonfiction title overall. We have recently relicensed the rights to Getting to Yes, and will be doing a new revised edition—a 30th anniversary of the original publication and 20th of the Penguin edition. The authors will be bringing the book up to date with new material and a assessment of the legacy and achievement of Getting to Yes after three decades"—Provided by publisher.

Dealmaking: The New Strategy of Negotiauctions - Guhan Subramanian
2011-08-22 For years, academic thinking on negotiations and auctions has matured in different silos. Negotiation theory focused on deals between two parties, investigating psychological motivations and invoking ideas like 'best alternative to a negotiated agreement.' Auction theory, on the other hand, focused exclusively on situations where multiple bidders were involved and the highest bidder won. Harvard Business School professor Guhan Subramanian specializes in understanding how deals. As he studied deals in the news, observed deals as a participant and invited legendary dealmakers into his classroom, one commonality kept cropping up. Assets most often change hand not in a pure negotiation or a pure auction, but by a mechanism that freely combines elements from both schools of thought. Negotiators are 'fighting on two fronts' across the table, but also on the same side of the table with known, unknown, or possible competitors. In Negotiauctions, Subramanian provides a lively tour of both negotiation and auction theory, following those summaries with an in-depth look at his hybrid theory that includes strategies that readers can use in real life situations. Along the way Subramanian employs multiple case studies, from studio negotiations over a new season of the TV show Frasier to his own experience purchasing a car. Classroom tested in one of the world's best business schools, Negotiauctions is an indispensable how-to guide for anyone involved in the sale of high-value assets.

Negotiating for Success: Essential Strategies and Skills - George J. Siedel 2014-10-04 We all negotiate on a daily basis. We negotiate with our spouses, children, parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders. Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways. First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract’s legal content should reflect the realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: “Life is negotiation!” No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its emphasis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when navigating through your life as a negotiator.

Giving - Bill Clinton 2007-09-04 Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and
save lives both “down the street and around the world.” Then it urges us to seek out what each of us, “regardless of income, available time, age, and skills,” can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving.

Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5 percent to 60 percent; Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave $150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city’s highest percentage of at-risk kids. “Tennis was a stepping-stone for me,” says Agassi. “Changing a child’s life is what I always wanted to do”; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira’s mother had earned enough money selling goat’s milk to pay Beatrice’s school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton’s own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. “We all have the capacity to do great things,” President Clinton says. “My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world.”
