**Essays on the Making of the Early Hebrew Book** Marvin J. Heller 2021-08-09 Articles on early Hebrew printing encompassing title-page motifs and entitling books; authors and places of publication including books opposed to gambling, on philology, and the massacres of tah-ve-tat (1648-48); small diverse places of printing; and on Christian-Hebraism.

**Commentary on Midrash Rabba in the Sixteenth Century** Benjamin Williams 2016-09-08 Printed editions of midrashim, rabbinic expositions of the Bible, flooded the market for Hebrew books in the sixteenth century. First published by Iberian immigrants to the Ottoman Empire, they were later reprinted in large numbers at the famous Hebrew presses of Venice. This study seeks to shed light on who read these new books and how they did so by turning to the many commentaries on midrash written during the sixteenth century. These innovative works reveal how their authors studied rabbinic Bible interpretation and how they anticipated their readers would do so. Benjamin Williams focuses particularly on the work of Abraham ben Asher of Safed, the Or ha-Sekhel (Venice, 1567), an elucidation of midrash Genesis Rabba which contains both the author's own interpretations and also the commentary he mistakenly attributed to the most celebrated medieval commentator Rashi. Williams examines what is known of Abraham ben Asher's life, his place among the Jewish scholars of Safed, and the publication of his book in Venice. By analysing selected passages of his commentary, this study assesses how he shed light on rabbinic interpretation of Genesis and guided readers to correct interpretations of the words of the sages. A consideration of why Abraham ben Asher published a commentary attributed to Rashi shows that he sought to lend authority to his programme of studying midrash by including interpretations ascribed to the most famous commentator alongside his own. By analysing the production and reception of the Or ha-Sekhel, therefore, this work illuminates the popularity of midrash in the early modern period and the origins of a practice which is now well-established-the study of rabbinic Bible interpretation with the guidance of commentaries.

Bukharan Jews and the Dynamics of Global Judaism — Alanna E. Cooper 2012 Part ethnography, part history, and part memoir, this volume chronicles the complex past and dynamic present of this ancient Mizrahi community. While intimately tied to the Central Asian landscape, the Jews of Bukhara have also maintained deep connections to the wider Jewish world. As the community began to disperse after the fall of the Soviet Union, Alanna E. Cooper travelled to Uzbekistan to document Jewish life there before it disappeared. Built around a series of dramatic encounters between Bukharan Jews and Jews from other Jewish centres from the 18th century to the present and drawing from Cooper's work among immigrants to the US, the book tells an intimate and personal story of what it means to be Bukharan Jewish. Cooper's lively narrative illuminates the tensions inherent in maintaining Judaism as a single global religion over the course of its long and varied diaspora history.

Printing the Talmud — Marvin J. Heller 2018-11-06 Printing the Talmud describes Talmud editions printed from 1650 to 1800, their publication and the contentious disputes between publishers. Subject editions, profusely illustrated, are addressed as an opening to the history of the presses and their context in Jewish history.

History of Jewish Philosophy — Daniel Frank 2005-10-20 Jewish philosophy is often presented as an addendum to Jewish religion rather than as a rich and varied tradition in its own right, but the History of Jewish Philosophy explores the entire scope and variety of Jewish philosophy from philosophical interpretations of the Bible right up to contemporary Jewish feminist and postmodernist thought. The links between Jewish philosophy and its wider cultural context are stressed, building up a comprehensive and historically sensitive view of Jewish philosophy and its place in the development of philosophy as a whole. Includes: · Detailed discussions of the most important Jewish philosophers and philosophical movements · Descriptions of the social and cultural contexts in which Jewish philosophical thought developed throughout the centuries · Contributions by 35 leading scholars in the field, from Britain, Canada, Israel and the US · Detailed and extensive bibliographies.

Hebrew Bible, Old Testament: From the Renaissance to the Enlightenment [1300-1800] — Magne Sæbø (Hg.) 2008-01 This third volume of the comprehensive international reference work on the interpretation of the Hebrew Bible/Old Testament deals with its reception within the time span of 1300-1800, from the Renaissance to the Enlightenment. Written by Jewish and Christian experts.

The History of the Book in the Middle East-Geoffrey Roper 2017-03-02 This selection of papers by scholarly specialists offers an introduction to the history of the book and book culture in West Asia and North Africa from antiquity to the 20th century. The flourishing and long-lived manuscript tradition is discussed in its various aspects - social and economic as well as technical and aesthetic. The very early but abortive introduction of printing - long before Gutenberg - and the eventual, belated acceptance of the printed book and the development of print culture are explored in further groups of papers. Cultural, aesthetic, technological, religious, social, political and economic factors are all considered throughout the volume. Although the articles reflect the predominance in the area of Muslim books - Arabic, Persian and Turkish - the Hebrew, Syriac and Armenian contributions are also discussed. The editor’s introduction provides a survey of the field from the origins of writing to the modern literary and intellectual revivals.

A History of the Jewish Community in Istanbul-Minna Rozen 2010-10-15 This volume presents the transformation of the Greek-speaking Jewish community of Byzantine Constantinople into an Ottoman, ethnically diversified immigrant community. As the Ottomans influenced its cultural and social values, the community strived to preserve its boundaries with the surrounding society.

The Way Jews Lived-Constance Harris 2008-12-30 "The author presents through pictures and text a social history of Jewish life and art in the last 500 years. Each chapter relates the brief history of a period, devoting particular attention to events concerning Jewish life"--Provided by publisher.

From Maimonides to Microsoft-Neil Weinstock Netanel 2016 Jewish copyright law is a rich body of copyright doctrine and jurisprudence that developed in parallel with Anglo-American and Continental European copyright laws and the printers' privileges that preceded them. Jewish copyright law traces its origins to a dispute adjudicated in 1550, over 150 years before modern copyright law is typically said to have emerged with the Statute of Anne of 1709. It continues to be applied today, notably in a rabbinic ruling outlawing pirated software, issued at Microsoft's request. In 'From Maimonides to Microsoft', Professors Netanel and Nimmer trace the development of Jewish copyright law by relaying the stories of five dramatic disputes, running from the sixteenth century to the present. They describe each dispute in its historical context and examine the rabbinic rulings that sought to resolve it. Remarkably, these disputes address some of the same issues that animate copyright jurisprudence today: Is copyright a property right or a limited regulatory prerogative? What is copyright's rationale? What is its scope? How can copyright be enforced against an infringer who is beyond the applicable legal authority's reach?
