Strategic planning - Wikipedia
Strategic planning is an organization’s process of defining its strategy, or direction, and making decisions on allocating its resources to pursue this strategy. It may also extend to control mechanisms for guiding the implementation of the strategy. Strategic planning became prominent in corporations during the 1960s and remains an important aspect of strategic management.

9.2 Demand Planning and Inventory Control - Principles of Inventory Control
Demand forecasting is part of a company's overall inventory control activities. Inventory control is the process of ensuring your firm has an adequate supply of products and a wide enough assortment of them meet your customers' needs. One of the goals of inventory management is to avoid stockouts.
