Foundations for Population Health in Community/Public Health Nursing - E-Book-Marcia Stanhope 2017-09-20 Get the essential information you need to know about population health and community health nursing! Foundations for Population Health in Community/Public Health Nursing, 5th Edition includes concise, focused coverage of community health nursing — from nursing roles and care settings to vulnerable population groups. The book uses a practical, community-oriented approach and places an emphasis on health promotion and disease prevention. Practical application of concepts is highlighted throughout the text in case studies, critical thinking activities, QSEN competencies, and Healthy People 2020 objectives. QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. Healthy People 2020 objectives in every chapter address the health priorities and emerging health issues expected in the next decade. Genomics coverage provides a history of genetics and genomics and how they impact public/community health nursing care. Focus on health promotion throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. Clinical Application scenarios present practice situations with questions and answers to help you apply chapter concepts to practice in the community. Evidence-Based Practice boxes highlight current research findings, their application to practice, and how community/public health nurses can apply the study results. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels, to reinforce the concept of prevention as it pertains to community and public health care. Feature box on Linking Content to Practice highlights how chapter content is applied in the role of public/community health nursing. NEW! Coverage of health care reform includes discussions of the impact of The Patient Protection and Affordable Care Act of 2010 (ACA) on public health nursing and the potential implications of its repeal. NEW! Check Your Practice boxes feature scenarios and discussion questions to promote active learning.

Neeb's Fundamentals of Mental Health Nursing-Linda M Gorman 2014-02-12 Here's the must-know information LPN/LVN students need to care for patients with mental health disorders where they'll encounter them—in general patient care settings. Introducing Mental Health Nursing-Leanne Cowin 2020-07-25 Introducing Mental Health Nursing offers a systematic overview of both the science and the art of caring for people experiencing mental health problems. It addresses the attitudes, knowledge and skills required to provide care for service users across all health-care settings, from specialist mental health services to general hospitals and community care. The authors place the service user at the centre of all aspects of mental health care and emphasise the importance of the therapeutic relationship as the cornerstone of good mental health nursing practice. Emphasis is placed on the role of the nurse as an intrinsic member of the mental health team, and nurses are encouraged to think critically about the perspectives that they bring to their practice. The second edition has been fully revised and updated, with increased focus on Indigenous social and emotional well-being, as well as two new chapters on Recovery and Cultural Safety. A must-have book for undergraduate nursing students, new graduates and professionals changing specialties or simply wishing to refresh their mental health nursing knowledge. 'This is a brave and dignified text - beautifully written and conceived and given the current texts available - a must for any serious undergraduate nursing program in an Australian university.' - David Buchanan, De Montfort University, Leicester, United Kingdom 'I recommend this text to all students of nursing, whether you intend to pursue a career in this speciality or if you simply desire to provide the best care possible in any field of practice.' - Associate Professor Stephen Elsom RN PhD, Director, Centre for Psychiatric Nursing, The University of Melbourne
