Mastering Islamic Finance Faizal Karbani 2015-02-20 A practical and accessible guide to Islamic finance that helps demystify the differences with conventional banking, enabling practitioners to develop Sharia compliant products for customers. The Islamic Finance industry is estimated to be worth $1.2 trillion and is growing globally at over 10% per year. Mastering Islamic Finance will give practitioners an understanding of Islamic finance, from the basic techniques, through to advanced applications. Helping to demystify and clarify the differences with conventional banking, it will enable practitioners to develop Sharia compliant products for customers. According to Sharia law there are strict rules on how financial services and products can be designed; in Islamic Finance money cannot make money and the subject of the finance must be an asset or a verifiable, real trade or business activity. Sharia compliant financial instruments have been devised to enable Muslims to abide by the principles of Islam and still make the most of their money. Mastering Islamic Finance will equip readers with an understanding of Islamic financial instruments so they can sensibly apply them in practice. For each instrument there is a definition of the concept and how it differs from its equivalent in conventional banking. There are also examples and case studies to highlight practical applications.

Introductory Mathematics and Statistics for Islamic Finance Abbas Mirakhor 2014-06-10 A unique primer on quantitative methods as applied to Islamic finance. Introductory Mathematics and Statistics for Islamic Finance +Website is a comprehensive guide to quantitative methods, specifically as applied within the realm of Islamic finance. With applications based on research, the book provides readers with the working knowledge of math and statistics required to understand Islamic finance theory and practice. The numerous worked examples give students with various backgrounds a uniform set of common tools for studying Islamic finance. The in-depth study of finance requires a strong foundation in quantitative methods. Without a good grasp of math, probability, and statistics, published theoretical and applied works in Islamic finance remain out of reach. Unlike a typical math
text, this book guides students through only the methods that directly apply to Islamic finance, without wasting time on irrelevant techniques. Each chapter contains a detailed explanation of the topic at hand, followed by an example based on real situations encountered in Islamic finance. Topics include: Algebra and matrices Calculus and differential equations Probability theory Statistics Written by leading experts on the subject, the book serves as a useful primer on the analysis methods and techniques students will encounter in published research, as well as day-to-day operations in finance. Anyone aspiring to be successful in Islamic finance needs these skills, and Introductory Mathematics and Statistics for Islamic Finance + Website is a clear, concise, and highly relevant guide.

Risk Management for Islamic Banks - Imam Wahyudi 2015-11-16 Gain insight into the unique risk management challenges within the Islamic banking system. Risk Management for Islamic Banks: Recent Developments from Asia and the Middle East analyzes risk management strategies in Islamic banking, presented from the perspectives of different banking institutions. Using comprehensive global case studies, the book details the risks involving various banking institutions in Indonesia, Malaysia, UAE, Bahrain, Pakistan, and Saudi Arabia, pointing out the different management strategies that arise as a result of Islamic banking practices. Readers gain insight into risk management as a comprehensive system, and a process of interlinked continuous cycles that integrate into every business activity within Islamic banks. The unique processes inherent in Islamic banking bring about complex risks not experienced by traditional banks. From Shariah compliance, to equity participation contracts, to complicated sale contracts, Islamic banks face unique market risks. Risk Management for Islamic Banks covers the creation of an appropriate risk management environment, as well as a stage-based implementation strategy that includes risk identification, measurement, mitigation, monitoring, controlling, and reporting. The book begins with a discussion of the philosophy of risk management, then delves deeper into the issue with topics like: Risk management as an integrated system The history, framework, and process of risk management in Islamic banking Financing, operational, investment, and market risk Shariah compliance and associated risk The book also discusses the future potential and challenges of Islamic banking, and outlines the risk management pathway. As an examination of the wisdom, knowledge, and ideal practice of Islamic banking, Risk Management for Islamic Banks contains valuable insights for those active in the Islamic market.

Mapping the Risks and Risk Management Practices in Islamic Banking - Wael Kamal Eid 2019-06-27 Deep, insightful analysis of controversial risk management issues in Islamic banking. Mapping the Risks And Risk Management Practices In Islamic Banking is a comprehensive analysis of the current state of risk management practices within the Islamic banking industry, with recommendations for policy makers, bankers, and industry stakeholders. Going beyond the academic, this book presents the opinions and perceptions of industry financiers and bankers, alongside primary information and data collected by Islamic finance professionals to deconstruct and analyze the sector's current risk management practices. You'll get up to date on the latest attitudes and trends, and delve into the current issues surrounding risk management in Islamic banks. With a focus on practical applications, this authoritative guide discusses the unique risks facing Islamic banks, from the perspective of a wide range of practitioners. Risk management is one of the biggest, most controversial issues in Islamic finance, yet it remains under-researched. Many uncertainties exist for which the answers are still unclear, yet will play a large role in shaping the industry's future. This book digs deep into current ideas and practices to discover what's being done, what needs to be done, and what needs to stop happening to keep the future of Islamic finance strong. Explore both Islamic and traditional attitudes toward risk. Examine current Islamic risk management practices. Understand the latest industry issues and trends. Consider the diverse range of risks unique to the Islamic banking sector. Effective risk management in Islamic banking deserves priority attention. Unless the industry develops its own genuine risk management architecture, it cannot achieve its full potential and the viability needed for a more resilient financial system than the debunked Wall Street model. Mapping the Risks and Risk Management Practices in Islamic Banking provides a deep, authoritative analysis of where the industry is today and where it needs to develop.
Handbook of Research on Theory and Practice of Global Islamic Finance - Rafay, Abdul 2019-12-27 As an emerging global phenomenon, Islamic economics and the financial system has expanded exponentially in recent decades. Many components of the industry are still unknown, but hopefully, the lack of awareness will soon be stilled. The Handbook of Research on Theory and Practice of Global Islamic Finance provides emerging research on the latest global Islamic economic practices. The content within this publication examines risk management, economic justice, and stock market analysis. It is designed for financiers, banking professionals, economists, policymakers, researchers, academicians, and students interested in ideas centered on the development and practice of Islamic finance.

Financial Innovation and Engineering in Islamic Finance - Samir Alamad 2017-04-13 This book provides two important contributions to existing theories in the financial innovation literature. First, it extends the existing literature of innovation orientation to a completely new field and construct that is based on a religious imperative as a framework within which financial innovation is constrained. It explains how an innovation orientation in IFIs can be directed within religious rules, which indicates that innovation orientation in IFIs is a learning philosophy. Second, the book introduces and examines the plasticity of Shariah as a shared boundary object and its dynamic role in managing tension and conflicting values in the financial innovation process. Furthermore, building on the empirical results, the study illustrates the insights that each theoretical lens affords into practices of collaboration and develops a novel analytical framework for understanding religious orientation towards financial innovation. This practical contribution, of the developed framework, could form the basis for a standardised framework for the Islamic finance industry. The book concludes by noting the policy and managerial implications of its findings and provides directions for further research.

The Conceptual Idea of the Mua’Malat Fiqh Forensic in the Islamic Financial System - Hailani Muji Tahir PhD 2019-05-20 This book serves as the platform to educate people at all levels to understand the fundamentals of fiqh processes pertaining especially to the conceptual idea of the globalization of the Mu’amat fiqh forensic particularly as the guideline for the innovation of various financial products in the Islamic financial system. The main goal of this book is to illustrate the step-by-step procedure on how an arising issue is resolved through fiqh. The heart of all fiqh issues is the identification stage. All arising issues must first be identified whether they fall under the category of qat’iy (definitive) or zanni (speculative), whether they are the matter of usul (roots) or furu’ (branches), and whether they belong under the matter of ittifaq (consensus in agreement) or ikhtilaf (difference in opinion). Once all these have been properly identified, only then can the people in charge proceed with the next step of resolving the said issues. In this current age of world without borders due to globalization, it becomes necessary for experts in the social and Islamic science fields to collaborate together to come up with a solution that simultaneously fulfills both the local and international market demands. Harmonization of these two different disciplines is difficult without proper guidance, and this book primarily strives to achieve that based on the author’s background of expertise and years of experience in solving numerous fiqh issues through this harmonization method.

ACHITS 2019 - Eddy Yunus e would like to welcome you to the ASIAN CONFERENCE ON HUMANITIES, INDUSTRY, AND TECHNOLOGY FOR SOCIETY hosted by, Dr Soetomo University on 30 - 31 July 2019 at Dr Soetomo University, Surabaya, East Java, Indonesia. Global Leaders in Islamic Finance - Emmy Abdul Alim 2014-02-10 Interviews with the professionals driving the rapid global growth of Islamic finance Though the modern Islamic finance system has existed for more
than forty years, its size and influence in the banking industry has expanded massively in just the last decade. This book looks at Islamic finance from the perspective of the experts shaping the industry, including some of the founders of the first Islamic banks—Haj Saeed Lootah, His Royal Highness Prince Mohamed Al Faisal Al Saud, and Sheikh Saleh Abdullah Kamel—as well as other professionals who have greatly influenced the industry. Editor Emmy Alim offers rare insight on Islamic finance with these insightful interviews focused on the development, rise, and future trajectory of Islamic finance. Features rare insider perspective on the rise of Islamic finance with interviews from the top names in the industry in Asia, the Middle East, Europe, and the United States An ideal resource for bankers and finance professionals working in traditional finance as well as Islamic finance Written by Emmy Alim, Editor for Thomson Reuters Islamic Finance Gateway, a multi-platform forum for experts and professionals in the Islamic finance industry

**The Everyday Practice of Valuation and Investment**-Horacio Ortiz

2021-11-23 The financial industry derives its legitimacy through the claim that it acts in the interest of shareholders. A vast international network of funds, banks, insurance companies, brokerages, rating agencies, and regulatory agencies defends its status by asserting that market mechanisms determine a company’s true value and therefore enriching shareholders contributes to the socially optimal allocation of capital. Is this how stock prices are determined in practice? What does stock valuation reveal about the supposed efficiency of markets and what it means to act on behalf of shareholders? Horacio Ortiz provides a critical analysis of the social institutions and practices that produce and regulate stock pricing and valuation. He examines how financial professionals evaluate and invest in listed companies, unraveling the contradictory definitions of financial value that shape their behavior. Ortiz demonstrates how ideologically laden notions of investing skill and efficient markets are central to the everyday practices of financial valuation, as well as how they function to justify the broader system. He scrutinizes the technical aspects of valuation and investment, their place in social relations within and among companies, and their relation to state regulation in order to demystify how the financial industry presents prices as truths that the rest of society must accept.

Drawing on ethnographic fieldwork conducted among stock brokers and investment management companies in New York and Paris, this book shows how the political imaginaries that underpin financial markets are central to producing, sustaining, and legitimizing global inequalities.

**Introduction to Islamic Banking & Finance**-Kabir Hassan 2013

Covering essential elements of Islamic Banking and Finance, as well as the latest views on topical debates surrounding the discipline, this text is essential reading for anyone seeking to understand this increasingly important sector of the finance industry. Written by Islamic scholars in the Arab world, this text gives new and pertinent insights into Islamic Banking and Finance, and its global impact.

**Mastering Private Equity Set**-Claudia Zeisberger 2017-07-10

This set combines the definitive guide to private equity with its case book companion, providing readers with both the tools used by industry professionals and the means to apply them to real-life investment scenarios. 1) Mastering Private Equity was written with a professional audience in mind and provides a valuable and unique reference for investors, finance professionals, students and business owners looking to engage with private equity firms or invest in private equity funds. From deal sourcing to exit, LBOs to responsible investing, operational value creation to risk management, the book systematically distils the essence of private equity into core concepts and explains in detail the dynamics of venture capital, growth equity and buyout transactions. With a foreword by Henry Kravis, Co-Chairman and Co-CEO of KKR, and special guest comments by senior PE professionals. 2) Private Equity in Action takes you on a tour of the private equity investment world through a series of case studies written by INSEAD faculty and taught at the world’s leading business schools. The book is an ideal complement to Mastering Private Equity and allows readersto apply core concepts to investment targets and portfolio companies in real-life settings. The 19 cases illustrate the managerial challenges and risk-reward dynamics common to private equity investment. Written with leading private equity firms and their advisors and rigorously tested in INSEAD’s MBA, EMBA and executive education programmes, each case makes for a compelling read.
Research in Corporate and Shari'ah Governance in the Muslim World - Toseef Azid 2019-05-20
Research in Corporate and Shari'ah Governance in the Muslim World: Theory and Practice aims to address a critical disciplinary gap between Islamic theory and the practice of the corporate sector in the Muslim World. Adopting a critical approach, the book sheds light on the impact of corporate governance on the economies of the Muslim world.

Venture Capital, Islamic Finance and SMEs - M. Durrani 2006-01-17
This book explores how the venture capital sector supports growth and development of SMEs. The text draws from major international empirical studies in Indian and Islamic industries to analyse techniques used by venture capitalists to value, structure and monitor investments. This book is essential for students, policy makers and practitioners.

Power and its Logic - Dominik Meier 2019-08-31
Power is the essence of politics. Whoever seeks to understand and master it must understand its logic. Drawing on two decades of international experience in political consulting, Dominik Meier and Christian Blum give profound and honest insights into the inner workings of power. Introducing their Power Leadership Approach, the authors provide a conceptual analysis of power and present the tools to successfully exercise it in the political domain. "Power and its Logic" is a guidebook for politicians, business leaders, civil society pioneers, public affairs consultants and for every citizen who wants to understand the unwritten rules of politics.

QFINANCE: The Ultimate Resource (4th edition) offers both practical and thought-provoking articles for the finance practitioner, written by leading experts from the markets and academia. Also included: Checklists: more than 250 practical guides and solutions to daily financial challenges; Finance Information Sources: 200+ pages spanning 65 finance areas; International Financial Information: up-to-date country and industry data; Management Library: over 130 summaries of the most popular finance titles; Finance Thinkers: 50 biographies covering their work and life; Quotations and Dictionary.

COVID-19 and Islamic Social Finance - M. Kabir Hassan 2021-03-08
It is said that the COVID-19 pandemic has turned back the poverty clock. As such, there is a need to have social mechanisms put in place to provide relief to those who are affected in this regard. Islamic social finance consists of tools and institutions that could be used to alleviate poverty. This
book explores the impact of COVID-19 on Islamic finance to better understand the effectiveness of Islamic social finance in helping those who have been affected by poverty overnight due to the halt in all major economic activities in the context of the pandemic. Since the struggle against poverty in each country will be different, the book attempts to shed light on the experiences of different countries by presenting successful models of Islamic social finance. The book first looks at poverty and COVID-19 before delving into the role of Islamic social financial institutions and how they have risen against COVID-19. The book concludes by examining the impact of COVID-19 on Islamic microfinance. This book is the first of its kind on the subject of COVID-19, and it intends to bridge the gap in the literature.

**Mastering the ISDA Collateral Documents**- Paul C. Harding 2012 A timely updating of the only accessible single volume guide to the ISDA Credit Support Annexes, sanctioned under English and US law. The Annexes collateralise or secure over the counter derivatives risk exposure. This is the companion book to Mastering the ISDA Master Agreements, now in its third edition. First published in 2002, the book is a guide to negotiation of the two main ISDA Credit Support Annexes which are used to support the ISDA Master Agreements. The ISDA Credit Support Annexes are the main support documents which relate to collateralised or secure over the counter derivatives risk exposure. This book covers collateral management from an operational perspective and focuses on the two main ISDA Credit Support Documents. It provides a clear concise narrative on their provisions and amendments.

**An Introduction to Islamic Economics**- Muhammad Akram Khan 1994-01-01 The contemporary economic systems have failed to solve the economic problems of mankind. The failure of socialism is too obvious to need any documentation. The track record of capitalism is far from being promising. Although a small minority has achieved unprecedentedly high material standards of living, a vast majority lives under conditions of abject poverty. The problems of unemployment, inflation, poverty amidst affluence, unequal distribution of wealth, frequent bouts of business recession, environmental pollution and ecological imbalance still bedevil man’s present life and threaten his future. The present book contends that the Islamic economic order has the potential of ushering in an age of human bliss; and the resources to build a free, just and responsible world for everyone on the earth.

**Risk Management in Islamic Finance**- Muhammad al-Bashir Muhammad al-Amine 2008-11-13 This study addresses the derivatives instruments in Islamic finance and highlights their benefits and legal aspects. It also discusses the forward, futures and options contracts in commodity markets. Arguments both in favour of and against these instruments are addressed and several alternatives are examined as well.

**Islamic Economic Studies**- 2009

**Shari’ah Governance in Islamic Banks**- Zulkifli Hasan 2012-07-26 An in-depth and insightful study of Shari'ah governance from a theoretical and practical perspective

**Islamic Finance**- 2010 Islamic Finance covers the application of Sharia law to the world of banking and finance and provides the reader with an understanding of the rationale behind the instruments and the development of Islamic financial markets.

**Introduction to Takaful**- Adnan Malik 2019-11-06 This book provides a comprehensive account of the theory and practice of takaful, which is an Islamic alternative to insurance. The concepts are explained using real-life case studies, calculations, and exhibits to aid in reader learning and reflection. Takaful, both as an academic subject and as well as practice, is growing particularly in the world leading financial and learning hubs such as in the UK and the USA and countries with large Muslim populations in Asia, Africa, and Middle East.
Over the last decade or so, private-sector financing through public-private partnerships (PPPs) has become increasingly popular around the world as a way of procuring and maintaining public-sector infrastructure, in sectors such as transportation (roads, bridges, tunnels, railways, ports, airports), social infrastructure (hospitals, schools, prisons, social housing) public utilities (water supply, waste water treatment, waste disposal), government offices and other accommodation, and other specialised services (communications networks or defence equipment). This book, based on the author's practical experience on the public- and private-sector sides of the table, reviews the key policy issues which arise for the public sector in considering whether to adopt the PPP procurement route, and the specific application of this policy approach in PPP contracts, comparing international practices in this respect. It offers a systematic and integrated approach to financing PPPs within this public-policy framework, and explains the project-finance techniques used for this purpose. The book deals with both the Concession and PFI models of PPP, and provides a structured introduction for those who are new to the subject, whether in the academic, public-sector, investment, finance or contracting fields, as well as an aide memoire for those developing PPP policies or negotiating PPPs. The author focuses on practical concepts, issues and techniques, and does not assume any prior knowledge of PPP policy issues or financing techniques. The book describes and explains: * The different types of PPPs and how these have developed * Why PPPs are attractive to governments * General policy issues for the public sector in developing a PPP programme * PPP procurement procedures and bid evaluation * The use of project-finance techniques for PPPs * Sources of funding * Typical PPP contracts and sub-contracts, and their relationship with the project's financial structure * Risk assessment from the points of view of the public sector, investors, lenders and other project parties * Structuring the investment and debt financing * The key issues in negotiating a project-finance debt facility. In addition the book includes an extensive glossary, as well as cross-referencing. *Reviews the PPP policy framework and development from an international perspective *Covers public- and private-sector financial analysis, structuring and investment in PPPs *No prior knowledge of project financing required

The Investment Industry for IT Practitioners—Andrew Bradford 2012-02-21
Giving IT professionals in financial services firms a rounded and comprehensive grounding in their knowledge of their industry, this book offers a primer on the major financial instruments, transactions, and processes, as well as a sound knowledge of the principles of good IT management in the industry. The book gives readers a clear understanding of equities, bonds, currencies, listed derivatives and OTC derivatives. It explains transactions in those instruments and the requirements of business systems that process these transactions. Transactions covered include (inter-alia) agency and principal purchases and sales, loans and deposits, repos and reverse repos, stock loans; and also the Sharia-compliant 'Islamic' transactions that may be used as alternatives to interest bearing transactions. Andrew Bradford gives an introduction to how investment firms are regulated; offers an understanding of the STP (Straight-through-Processing) concept following the trade cycle for the transactions from order through to execution through pre-settlement to final settlement; covers basic accounting procedures for the transactions; and conveys the basic principles of good IT management in the investment industry.

Orient— 2008

Fintech in Islamic Finance—Umar A. Oseni 2019-06-26
Featuring high-level analysis of Islamic law, this book examines fintech in Islamic finance from both theoretical and empirical perspectives. Whilst building on existing approaches, it also discusses the current application of fintech in promoting financial inclusion through innovative solutions in Muslim-majority countries, identifying future directions for policy-makers. With original chapters written by prominent academics, senior lawyers and practitioners in the global Islamic finance industry, this book serves as the first standalone pioneering reference work on fintech in Islamic finance. It also, for the first time, examines the position of Islamic law on cryptocurrencies, such as bitcoin. Besides the conceptual analysis of the Shari‘ah and legal aspects of fintech in Islamic finance, this book provides relevant case studies showing current and potential developments in the application of fintech in various sectors ranging from crowdfunding and
smart contracts, to Online Dispute Resolution, Investment Account Platform and identity verification in the KYC process. Setting the agenda for researchers in the field, Fintech in Islamic Finance will be useful to students and scholars of Islamic finance and financial technology.

Mastering the Circular Economy - Ed Weenk 2021-05-03 Global consumption of raw materials currently goes beyond the earth’s regenerative capacity, but the circular economy offers a more sustainable model which also provides new business opportunities. Mastering the Circular Economy is an introduction to circularity from a business and value chain management perspective. With many reflections and exercises throughout, the book draws a direct link between relevant recent theory and practice and offers students and practitioners a deeper understanding of the topic. It looks at both the macro and micro context of the circular economy, from the government and societal view to the impact of new business models in an individual company. Starting from the corporate imperative of moving from linear to circular business models, Mastering the Circular Economy covers the associated opportunities and challenges for organizations, from regulation and risk to value chain collaboration, reverse logistics and product quality. Part two of the book helps students to pull together everything they’ve learned and see how the concepts play out in the real world by guiding them through application in the online business simulation game The Blue Connection (free basic access is included with the book). Readers are continuously asked to reflect on the choices they would make in different roles to demonstrate a full understanding of the strategic and operational implications of the circular economy.

Cash & Liquidity Management - Olaf Ransome 2014-02-13 Descriptive text: This book will help those who work in the Operations area of Financial Services firms and have to deal with the daily business of cash & liquidity management. It will also help those concerned with change in those areas too. In 2014, there is a huge amount of change, much of it mandatory, must-do. This book explains those changes and offers some insights on how to address them. This is a practitioner’s guide; the view from the Bankers' Plumber and one that has had the benefit of input from a broad church of people who do this for a living.

Nine Steps to Financial Freedom - Suze Orman 2000 The best-selling author of The Courage to Be Rich and You’ve Earned It, Don’t Lose It shows readers how to obtain control over their money through changing their spending habits; how to understand investments, retirement, insurance, and credit; and how to gain true financial freedom. Reprint. 250,000 first printing.

The Law of Corporate Finance: General Principles and EU Law - Petri Mäntysaari 2009-11-11 1.1 Investments, Generic Contracts, Payments According to Volume I, contracts are one of the five generic legal tools used to manage cash flow, risk, agency relationships, and information. Many investments are therefore based on one or more contracts. Obviously, the firm should draft good contracts. Good drafting can ensure the same intended cash flow with reduced risk. Bad drafting can increase risk. This volume attempts to deconstruct contracts used by non-financial firms and analyse them from a cash flow, risk, agency, and information perspective. The starting point is a generic contract, i.e. a contract which does not belong to any particular contract type (Chapters 2-7). This volume will also focus on payment obligations. Payment obligations are characteristic of all financial instruments, and they can range from simple payment obligations in minor sales contracts and traditional lending contracts (Chapters 8–11).

1.2 Particular Contract Types A number of particular contract types have been discussed in the other volumes of this book. (1) A certain party’s investment contract can be another party’s funding contract. Particular investment contracts will therefore be discussed in Volume III in the context of funding. (2) Many contracts are necessary in the context of business acquisitions discussed in Volume III. (3) Multi-party contracts are common in corporate finance. The firm’s contracts with two or more parties range from syndicated loans to central counterparties’ contracts. Such contracts will be discussed both in Chapter 12 and Volume III.

Entrepreneurship and Big Data - Meghna Chhabra 2021-09-30 The digital age has transformed business opportunities and strategies in a resolutely
practical and data-driven project universe. This book is a comprehensive and analytical source on entrepreneurship and Big Data that prospective entrepreneurs must know before embarking upon an entrepreneurial journey in this present age of digital transformation. This book provides an overview of the various aspects of entrepreneurship, function, and contemporary forms. It covers a real-world understanding of how the entrepreneurial world works and the required new analytics thinking and computational skills. It also encompasses the essential elements needed when starting an entrepreneurial journey and offers inspirational case studies from key industry leaders. Ideal reading for aspiring entrepreneurs, Entrepreneurship and Big Data: The Digital Revolution is also useful to students, academicians, researchers, and practitioners.

Mastering the Supply Chain - Ed Weenk 2019-03-03 Mastering the Supply Chain is an introduction to supply chain management. The book integrates theory with practice and aims to create a cross-functional mindset in students and practitioners. It provides a wide overview of relevant supply chain concepts and sets out the challenges that need to be overcome in order to find practical ways of implementing these in a real company situation. Readers are continuously asked to actively reflect on the choices they make, thus experiencing first-hand the many challenges that good and effective supply chain management presents. Mastering the Supply Chain presents a different way of learning that puts the reader at the heart of a life-like situation, so that they experience the impact of every decision they make, not just in their own 'silo' but across the business. In this way, they will learn that many supply chain concepts are relatively simple to understand, but not so easy to apply in reality. Chapter 6 helps students to pull everything they've learned together and see how the concepts play out in the real world by guiding them through an interactive demonstration of the online business simulation game The Fresh Connection (free access is included with the book). This is a key text for students on supply chain management BScs and MScs as well as background reading for students playing the full version of The Fresh Connection Business Simulation game.

Islamic Banking and Finance - Munawar Iqbal 2002-01-01 It is a well-known fact that conventional commercial banks provide financial intermediation services on the basis of interest rates on assets and liabilities. However, since interest is prohibited in Islam, Islamic banks have developed several other modes through which savings are mobilized and passed on to entrepreneurs, none of which involve interest. Islamic Banking and Finance discusses Islamic financial theory and practice, and focuses on the opportunities offered by Islamic finance as an alternative method of financial intermediation. Key features of profit-sharing (as opposed to debt-based) contracts are highlighted, and the ways in which they can facilitate improved efficiency and stability of a financial system are explored. The authors illustrate that in addition to some 200 Islamic banks operating in Muslim as well as non-Muslim countries, some of the biggest multinational banks are now offering Islamic financial products. This book will fascinate students, researchers and academics with a special interest in comparative banking, middle-eastern studies and international finance, and will also appeal to practitioners of banking and finance.

Project Finance in Theory and Practice - Stefano Gatti 2013 This book presents comprehensive coverage of project finance in Europe and North America. The Second Edition features two new case studies, all new pedagogical supplements including end-of-chapter questions and answers, and insights into the recent market downturn. The author provides a complete description of the ways a project finance deal can be organized - from industrial, legal, and financial standpoints - and the alternatives available for funding it. After reviewing recent advances in project finance theory, he provides illustrations and case studies. At key points Gatti brings in other project finance experts who share their specialized knowledge on the legal issues and the role of advisors in project finance deals. Foreword by William Megginson, Professor and Rainbolt Chair in Finance, Price College of Business, The University of Oklahoma Comprehensive coverage of theory and practice of project finance as it is practiced today in Europe and North America Website contains interactive spreadsheets so that readers can input data and run and compare various scenarios, including up to the minute treatment of the cutting-edge areas of PPPs and the new problems raised by Basel II related to credit risk measurement.
world’s leading professionals, visionaries, writers and educators, this is THE first-stop reference resource and knowledge base for finance. QFINANCE covers an extensive range of finance topics with unique insight, authoritative information, practical guidance and thought-provoking wisdom.
