(PDF) Transtheoretic model in smoking cessation

The transtheoretical model is an integrative model of behavior change that can provide the conceptual basis for developing interventions to modify a problem behavior or to acquire a positive behavior.

Theories of behaviour and behaviour change across the

Aug 07, 2015 · Definition of key terms. One of the first tasks of the advisory group was to agree definitions of the terms ‘theory’ and ‘behaviour’. A shortlist of potentially relevant definitions of each term was compiled from peer-reviewed journals, reports and books, for example, the American Psychological Association Dictionary. In the first of two rounds of a Delphi process, ...
